Geisinger

**POLICY AND PROCEDURE MANUAL**

**POLICY NUMBER: 708.0**

**SECTION: Commercial Drug**
**SUBJECT:** Duloxetine 40mg (generic Irenka)

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for duloxetine 40 mg (generic Irenka) GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

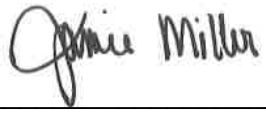
An exception for coverage of duloxetine 40 mg (generic Irenka) may be made for members who meet the following criteria:

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to duloxetine (generic Cymbalta) at the same dose as requested

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14, generic only

If a formulary exception is approved, duloxetine 40 mg (generic Irenka) will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

duloxetine (generic Cymbalta)

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Tarpeyo may be made for members who meet the following criteria:

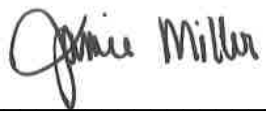
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of primary immunoglobulin A nephropathy (IgAN) verified by biopsy **AND**
- Medical record documentation that Tarpeyo is prescribed by or in consultation with a nephrologist **AND**
- Medical record documentation that patient is at risk of disease progression, defined as proteinuria greater than 1 gram/day **AND**
- Medical record documentation of estimated glomerular filtration rate (eGFR) greater than or equal to 35 mL/min/1.73 $m^2$ **AND**
- Medical record documentation that member has received a stable dose of a renin-angiotensin system (RAS) Inhibitor (ACE inhibitor or ARB) at a maximally tolerated dose for greater than or equal to 90 days **AND**
- Medical record documentation that a renin-angiotensin system (RAS) inhibitor (ACE inhibitor or ARB) will be used in combination with Tarpeyo **AND**
- Medical record documentation that member has received greater than or equal to 90 days of optimized supportive care, including blood pressure management, lifestyle modification, and cardiovascular risk modification **AND**
- Medical record documentation that the member has not previously completed a 9-month treatment course of Tarpeyo **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to a glucocorticoid (e.g., prednisone, methylprednisolone)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL for letter only: 4 capsules per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Approval will be for one, 10-month treatment cycle (or less if there is medical record documentation of an incomplete course of therapy).



If a formulary exception is approved, Tarpeyo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
methylprednisolone, prednisone

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Cibinqo for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**
New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

**For treatment of atopic dermatitis (AD)**
An exception for coverage of Cibinqo may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of moderate to severe atopic dermatitis **AND**
- Medical record documentation that Cibinqo is prescribed by or in consultation with an allergist, dermatologist, or immunologist **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of one of the following:
    - Therapeutic failure on an adequate trial of at least one medium (or higher) potency topical corticosteroid **OR**
    - For members with an intolerance or contraindication to topical corticosteroids or for members in whom topical corticosteroids are inadvisable: Therapeutic failure on, intolerance to, or contraindication to a topical calcineurin inhibitor **AND**
- Medical record documentation of contraindication to, intolerance to, or therapeutic failure to one systemic therapy (e.g., phototherapy, immunotherapy, or other systemic agents) **AND**
- Medical record documentation that Cibinqo will not be used in combination with another Janus kinase (JAK) inhibitor, biologic immunomodulator or with other immunosuppressants including but not limited to azathioprine and cyclosporine

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*
QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 6 months if the reviewing provider feels it is medically appropriate. Subsequent approval will be for 12 months and will require medical record documentation of lack of disease progression or continued disease improvement.

If an exception is made, Cibinqo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

Geisinger

**POLICY AND PROCEDURE MANUAL**

**POLICY NUMBER: 713.0**

**SECTION: Commercial Drug**
**SUBJECT:** Ibsrela

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Ibsrela for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Ibsrela may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of irritable bowel syndrome with constipation (IBS-C) **AND**
- Medical record documentation of therapeutic failure on, contraindication to, or intolerance to Linzess

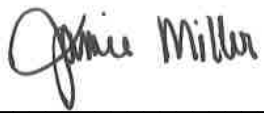
**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

QL FOR LETTER ONLY: 2 tablets per day

If an exception is made, Ibsrela will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

Geisinger

**POLICY AND PROCEDURE MANUAL**

**POLICY NUMBER: 714.0**

**SECTION: Commercial Drug**
**SUBJECT:** Pyrukynd

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Pyrukynd for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Pyrukynd may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of diagnosis of pyruvate kinase deficiency (PKD) **AND**
- Medical record documentation of at least 2 mutant alleles in the PKLR gene, with at least 1 being a missense mutation **AND**
- Medical record documentation that the member is not homozygous for the R479H mutation **AND**
- Medical record documentation that Pyrukynd is prescribed by or in consultation with a hematologist **AND**
- Medical record documentation that the member required red blood cell (RBC) transfusions for hemolytic anemia due to PKD within the last 12 months **AND**
- Medical record documentation of hemoglobin level less than or equal to 10 g/dL

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

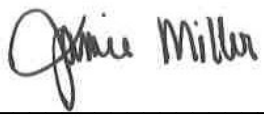
**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

QL FOR LETTER ONLY: 2 tablets per day, 28 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 6 months if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 6 months. Reauthorization requires medical documentation of an increase in hemoglobin of 1.5 g/dL from baseline **OR** reduction in transfusion burden.

**NOTE:** Abrupt discontinuation of Pyrukynd therapy may result in acute hemolysis.

If an exception is made, Pyrukynd will be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**
New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Ztalmy may be made for members who meet the following criteria:

- Medical record documentation that Ztalmy is prescribed by a neurologist **AND**
- Medical record documentation of age greater than or equal to 2 years **AND**
- Medical record documentation of a diagnosis of CDKL5 Deficiency Disorder (CDD) **AND**
- Medical record documentation of genetic testing that confirms a cyclin-dependent kinase-like 5 (CDKL5) deficiency **AND**
- Medical record documentation that the patient is experiencing baseline seizures and documentation of the baseline frequency of seizures **AND**
- Medical record documentation of a therapeutic failure, intolerance, or contraindication to at least two previous antiepileptic therapies **AND**
- Medical record documentation that the requested daily dose does not exceed the following:
    - Weight less than 28 kg: 63 mg/kg/day **OR**
    - Weight greater than 28 kg: 1800 mg/day

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

QL FOR LETTER ONLY: 36.7 mL per day, 1100 mL per 30 days

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 12 months and will require medical record documentation of the following:

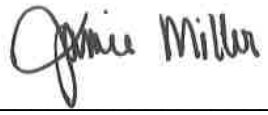
- Medical record documentation of a sustained reduction in monthly seizure frequency compared to baseline **AND**
- Medical record documentation that the requested daily dose does not exceed the following:
  - Weight less than 28 kg: 63 mg/kg/day **OR**
  - Weight greater than 28kg: 1800 mg/day

If an exception is made, Ztalmy will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

For patients aged ≥ 2 years: topiramate immediate release tablets, topiramate immediate release sprinkle capsules, lamotrigine immediate release springle capsules, carbamazepine, clobazam, levetiracetam IR, phenobarbital, phenytoin, pregabalin, topiramate extended release*, vigabatrin*, valproic acid



Additional Formulary Alternatives: gabapentin (3+), oxcarbazepine (4+), divalproex (10+), levetiracetam ER (12+), tiagabine (12+), lamotrigine ER (13+), felbamate (14+), and zonisamide (16+)

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**POLICY AND PROCEDURE MANUAL**

**POLICY NUMBER: 718.0**

**SECTION: Commercial Drug**
**SUBJECT:** Non-Preferred Topical Corticosteroids

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for non-preferred topical corticosteroids for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

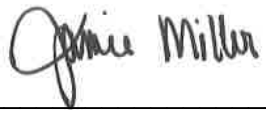
**PROCEDURE:**

An exception for coverage of a non-preferred topical corticosteroid may be made for members who meet the following criteria:

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) formulary alternatives [one (1) of which must be of a similar potency]

If a formulary exception is approved, the non-preferred topical corticosteroid will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)
**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone

0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)
**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)
**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Alkindi Sprinkle or Khindivi for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Alkindi Sprinkle or Khindivi may be made for members who meet the following criteria:

- Medical record documentation of age less than or equal to 17 years **AND**
- For Khindivi only: Medical record documentation of age greater than or equal to 5 years **AND**
- Medical record documentation of a diagnosis of adrenocortical insufficiency **AND**
- Medical record documentation of difficulty swallowing **OR**
- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to two (2) generic formulary corticosteroid, one of which must be hydrocortisone

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Approval will be for 12 months. Members will be reassessed annually for age appropriateness and need for the sprinkle or solution formulation.

If a formulary exception is approved, Alkindi Sprinkle or Khindivi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

Geisinger

**POLICY AND PROCEDURE MANUAL**

**POLICY NUMBER: 720.0**

**SECTION: Commercial Drug**
**SUBJECT:** Camzyos

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Camzyos for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Camzyos may be made for members who meet the following criteria:

- Medical record documentation that Camzyos is prescribed by a cardiologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of diagnosis of New York Heart Association (NYHA) class II-III obstructive hypertrophic cardiomyopathy **AND**
- Medical record documentation of left ventricular ejection fraction (LVEF) greater than or equal to 55% **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to two of the following: beta-blockers, non-dihydropyridine calcium channel blockers, or disopyramide

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

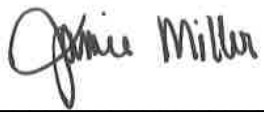
**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

QL FOR LETTER ONLY: 1 capsule per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 12 months and will require medical record documentation of the following:

- Medical record documentation of left ventricular ejection fraction (LVEF) greater than or equal to 50% **AND**
- Medical record documentation of clinical improvement or maintenance of condition

If an exception is made, Camzyos will be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Beta-blockers: acebutolol, atenolol, betaxolol, bisoprolol, carvedilol, labetalol, metoprolol succinate, metoprolol tartrate, nadolol, pindolol, propranolol, timolol
Non-dihydropyridine calcium channel blockers diltiazem, verapamil
disopyramide

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Verkazia may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 4 years **AND**
- Medical record documentation of a diagnosis of vernal keratoconjunctivitis in children and adults **AND**
- Medical record documentation of therapeutic failure, intolerance to, or contraindication to at least one mast cell stabilizer/topical antihistamine (i.e., olopatadine, azelastine, epinastine)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 4 single-dose vials per day

If an exception is made, Verkazia will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Eysuvis for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Eysuvis may be made for members who meet the following criteria:

- Medical record documentation that Eysuvis is prescribed by an optometrist or ophthalmologist **AND**
- Medical record documentation that Eysuvis is being used for the short-term (up to two weeks) treatment of the signs and symptoms of dry eye disease **AND**
- Medical record documentation that Eysuvis will be prescribed according to the Food and Drug Administration (FDA) approved dose* **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to loteprednol 0.5% suspension** **OR** fluorometholone 0.1% suspension

**NOTE:** The FDA approved dose is one to two drops into each eye four times daily for up to two weeks.

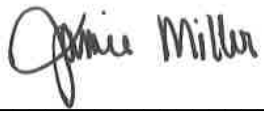
**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**AUTHORIZATION DURATION:** 14 days, RX count 1

**QUANTITY LIMIT:** *QLs must be entered within the authorization.*
QL FOR LETTER AND AUTHORIZATION: 8.3 mL per 14 days, minimum and maximum day supply 14 days.

If an exception is made, Eysuvis will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

loteprednol 0.5% suspension*, fluorometholone 0.1% suspension

*prior authorization required

|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Gloperba for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Gloperba may be made for members who meet the following criteria:

- Medical record documentation of age 18 great than or equal to years **AND**
- Medical record documentation that Gloperba is being used for prophylaxis of gout flares **AND**
- Medical record documentation that Gloperba will be used in combination with urate lowering therapy (ULT) **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of difficulty swallowing **OR**
    - Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) generic formulary anti-inflammatory gout prophylactic agents, one of which much be generic colchicine tablets **OR** generic colchicine capsules

**NOTE:** Medical record documentation that member is not currently prescribed drugs that inhibit both CYP3A4 and P-gp if they have renal or hepatic impairment.

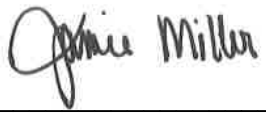
**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 10 mL per day

**AUTHORIZATION DURATION:** 6 months

If an exception is made, Gloperba will be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

colchicine, celecoxib, diclofenac, diflunisal, etodolac, fenoprofen, flurbiprofen, ibuprofen, indomethacin, ketoprofen, ketorolac tromethamine, meclofenamate, mefenamic acid, meloxicam, nabumetone, naproxen, oxaprozin, piroxicam, sulindac, tolmetin, dexamethasone, fludrocortisone, hydrocortisone, methylprednisolone, prednisolone, prednisone

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Mounjaro, liraglutide, Ozempic, Rybelsus, or Trulicity may be made for members who meet the following criteria:

**Mounjaro, Liraglutide, Ozempic, Rybelsus, Trulicity for Diabetes**

- Medical record documentation of a diagnosis of type II diabetes mellitus **AND**
- Therapeutic failure on, intolerance to, or contraindication to metformin OR any other oral antidiabetic drug

**Ozempic for CKD**

- Medical record documentation to reduce the risk of sustained estimated glomerular filtration rate (eGFR) decline, end-stage kidney disease and cardiovascular death in adults with a diagnosis of type 2 diabetes mellitus and chronic kidney disease

***NOTE:** Any one form of documentation is allowed (either ICD-10 code, medical records, chart notes, A1C or other lab confirming T2DM diagnosis).

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, generic only if request is for liraglutide

**AUTHORIZATION DURATION:** Authorizations will be for a period of 1 year and will require:

- Medical record documentation that member has titrated to the appropriate maintenance dosage based on patient response and tolerability

**OR** if the above criteria is NOT met:

- The plan may provide a one-time three (3) month authorization for the requested medication during a period of titration to the appropriate maintenance dose in

accordance with the accepted standards of care and package labeling for patients requiring a slower titration based on tolerability.

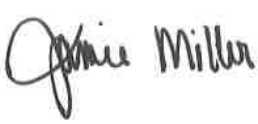
**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

QL FOR LETTER ONLY:

- Liraglutide: 0.3 mL per day
- Mounjaro 2.5 mg: 2 mL per 180 days
- Mounjaro 5 mg, 7.5 mg, 10 mg, 12.5 mg, & 15 mg: 2 mL per 28 days
- Ozempic: 3 mL per 28 days
- Rybelsus 3 mg: 30 tablets per 180 days
- Rybelsus 7 mg & 14 mg: 1 tablet per day
- Trulicity: 2 mL per 28 days

If an exception is made, Mounjaro, liraglutide, Ozempic, Rybelsus, or Trulicity will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

metformin, glyburide, glipizide, glipizide sustained-release, chlorpropamide, glimepiride, acarbose, miglitol, repaglinide, pioglitazone, Jardiance, Synjardy, Tradjenta, Jentadueto

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**SECTION: Commercial Drug**
**SUBJECT:** Rasuvo

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Rasuvo for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Rasuvo may be made for members who meet the following criteria:

**Rheumatoid Arthritis**

- Medical record documentation of treatment of severe, active rheumatoid arthritis **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least one prior first line therapy (including NSAIDs) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to methotrexate vials

**For Polyarticular Juvenile Idiopathic Arthritis:**

- Medical record documentation of treatment of active polyarticular juvenile idiopathic arthritis **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least one prior first line therapy (including NSAIDs) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to methotrexate vials

**For Psoriasis:**

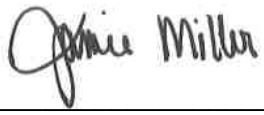
- Medical record documentation of treatment of severe, recalcitrant, disabling psoriasis **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least one prior therapy **AND**

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to methotrexate vials

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 4 syringes per 28 days



If an exception is made, Rasuvo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

This specific policy explains how coverage decisions are determined for Vtama for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Vtama may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of plaque psoriasis **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least one (1) medication from all of the following:
    - Topical corticosteroid (at least medium or higher potency) **OR** topical calcineurin inhibitor **AND**
    - Topical retinoid **AND**
    - Topical vitamin D analog

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

If an exception is made, Vtama will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

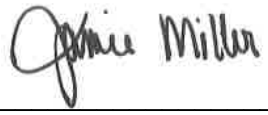
Topical Vitamin D Analogs: calcipotriene 0.005% solution/cream/ointment (Dovonex), calcitriol 3mcg/gm ointment (Vectical)

Topical Retinoids: tazarotene 0.1% cream/gel (Tazorac)

Low-potency topical corticosteroids: alclometasone dipropionate 0.5% cream and

ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)

Medium-potency topical corticosteroids: betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)



High-potency topical corticosteroids: amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)

Very high-potency topical corticosteroids: augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Ryaltris may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of a diagnosis of allergic rhinitis **AND**
- Medical record documentation of therapeutic failure, intolerance to, or contraindication to intranasal olopatadine in combination with intranasal mometasone **AND** azelastine/fluticasone intranasal

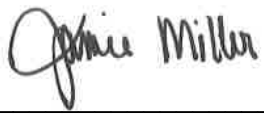
**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 0.96 g per day (29 g per 30 days)

If an exception is made, Ryaltris will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

fluticasone propionate nasal spray, mometasone nasal spray, azelastine 0.1% nasal spray, azelastine 0.15% nasal spray, olopatadine nasal spray, azelastine/fluticasone nasal spray

| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Sotyktu for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Sotyktu may be made for members who meet **ALL** of the following criteria:

- Medical record documentation that Sotyktu is prescribed by a dermatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of moderate to severe plaque psoriasis characterized by greater than 3% of body surface area involved or disease involving crucial body areas such as the hands, feet, face, or genitals **AND**
- Medical record documentation of an intolerance to, contraindication to or therapeutic failure on four (4) preferred formulary biologics for the treatment of psoriasis **AND**
- Medical record documentation that Sotyktu is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

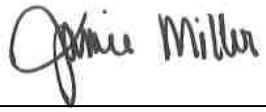
- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

| Geisinger<br><br>**POLICY AND PROCEDURE MANUAL** | **POLICY NUMBER: 742.0**<br><br>**SECTION: Commercial Drug**<br>**SUBJECT:** Sotyktu |
|---|---|

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of plaque psoriasis on Sotyktu therapy is required.

If an exception is made, Sotyktu will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of **Zoryve 0.3% topical cream** may be made for members who meet the following criteria:

**Age 12 Years and Above**

- Medical record documentation that Zoryve is prescribed by or in consultation with a dermatologist **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of a diagnosis of chronic plaque psoriasis **AND**
- Medical record documentation of BSA involvement less than or equal to 20% **AND**
- Medical record documentation of therapeutic failure, intolerance, or contraindication to at least one of the following:
    - A high- to ultrahigh-potency TCS used concurrently with a generic topical calcipotriene product **OR**
    - A generic calcipotriene/betamethasone combination product **OR**
    - A high- to ultrahigh-potency TCS used concurrently with generic tazarotene 0.1%

**Age 6 to 11 Years**

- Medical record documentation that Zoryve is prescribed by or in consultation with a dermatologist **AND**
- Medical record documentation of age 6 to 11 years **AND**
- Medical record documentation of a diagnosis of chronic plaque psoriasis **AND**
- Medical record documentation of BSA involvement less than or equal to 20% **AND**
- Medical record documentation of therapeutic failure, intolerance, or contraindication to a medium to high-potency topical corticosteroid used concurrently with a generic topical calcipotriene product [calcipotriene should be avoided on the face, genitalia, intertriginous areas/flexures]

An exception for coverage of **Zoryve 0.3% topical foam** may be made for members who meet the following criteria:

**Seborrheic Dermatitis**

- Medical record documentation that Zoryve topical foam is prescribed by or in consultation with a dermatologist **AND**
- Medical record documentation of age greater than or equal to 9 years **AND**
- Medical record documentation of a diagnosis of seborrheic dermatitis **AND**
- Medical record documentation of therapeutic failure, intolerance, or contraindication to:
    - At least one low- to high-potency topical corticosteroid **AND**
    - At least one topical antifungal

**Plaque Psoriasis**

- Medical record documentation that Zoryve topical foam is prescribed by or in consultation with a dermatologist **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of a diagnosis of plaque psoriasis **AND**
- Medical record documentation of therapeutic failure, intolerance, or contraindication to at least one of the following:
    - A high- to ultrahigh-potency topical corticosteroid used concurrently with a generic topical calcipotriene product **OR**
    - A generic calcipotriene/betamethasone combination product **OR**
    - A high- to ultrahigh-potency topical corticosteroid used concurrently with generic tazarotene 0.1%

---

An exception for coverage of **Zoryve 0.15% topical cream** may be made for members who meet the following criteria:

- Medical record documentation that Zoryve 0.15% cream is prescribed by or in consultation with a dermatologist, allergist, or immunologist **AND**
- Medical record documentation of a diagnosis of mild to moderate atopic dermatitis **AND**
- Medical record documentation of age greater than or equal to 6 years **AND**
- Medical record documentation that member is immunocompetent **AND**
- Medical record documentation of Body Surface Area (BSA) less than or equal to 20% **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to ALL of the following:
    - One formulary topical calcineurin inhibitor (tacrolimus ointment) **AND**
    - One formulary topical corticosteroid unless deemed inadvisable due to potential risks such as (a) use on sensitive skin areas (face, axillae, or groin)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 60 grams (1 tube) every 30 days

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 12 months and will require medical record documentation of the following:

- For Zoryve 0.3% topical cream: Medical record documentation of clinical improvement based on signs and symptoms of plaque psoriasis **OR**
- For Zoryve 0.3% topical foam: Medical record documentation of clinical improvements based on signs and symptoms of seborrheic dermatitis or plaque psoriasis **OR**
- For Zoryve 0.15% topical cream: Medical record documentation of clinical improvement based on signs and symptoms of atopic dermatitis

If an exception is made, Zoryve will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

**Plaque Psoriasis**

calcipotriene, calcipotriene-betamethasone, tazarotene, betamethasone, betamethasone-dipropionate, clobetasol, halobetasol

**Seborrheic Dermatitis**

Low-potency topical corticosteroids: alclometasone dipropionate, desonide, fluocinolone acetonide, hydrocortisone

Medium-potency topical corticosteroids: betamethasone valerate, fluocinolone acetonide, flurandrenolide, fluticasone propionate, hydrocortisone butyrate, hydrocortisone valerate, mometasone, prednicarbate, triamcinolone acetonide

High-potency topical corticosteroids: amcinonide, augmented betamethasone dipropionate, betamethasone dipropionate, betamethasone valerate, desoximetasone, diflorasone, fluocinonide, fluticasone, mometasone, triamcinolone

Topical antifungals: ciclopirox, clotrimazole, econazole, ketoconazole, selenium sulfide

**Atopic Dermatitis**
Calcineurin Inhibitors: tacrolimus ointment, pimecrolimus cream*

Low-potency topical corticosteroids: alclometasone dipropionate, desonide, fluocinolone acetonide, hydrocortisone

Medium-potency topical corticosteroids: betamethasone valerate, fluocinolone acetonide, flurandrenolide, fluticasone propionate, hydrocortisone butyrate, hydrocortisone valerate, mometasone, prednicarbate, triamcinolone acetonide

High-potency topical corticosteroids: amcinonide, augmented betamethasone dipropionate, betamethasone dipropionate, betamethasone valerate, desoximetasone, diflorasone, fluocinonide, fluticasone, mometasone, triamcinolone

Very high-potency topical corticosteroids: augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, and scalp lotion (Temovate) diflorasone diacetate 0.05% cream and ointment (ApexiCon/Psorcon)

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**SUBJECT:** Aspruzyo Sprinkle

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Aspruzyo Sprinkle for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Aspruzyo Sprinkle may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of chronic angina **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to ranolazine ER tablets **OR** documentation that member is unable to swallow tablets

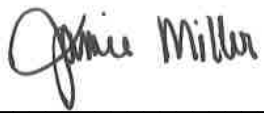
**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 packets per day

If an exception is made, Aspruzyo Sprinkle will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Relyvrio for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Relyvrio may be made for members who meet the following criteria:

- Medical record documentation that Relyvrio is prescribed by or in consultation with a neurologist **AND**
- Medical record documentation of a diagnosis of amyotrophic lateral sclerosis (ALS)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:**

- Initial Approval: *Quantity limit must be entered within authorization.*
    - In PA Hub: Add PA only for the approved authorization duration.
    - In Darwin: Add OQL and DS only, max number of claims authorized 1, max quantity dispensed 35, min day supply 28, max day supply 28, with a duration of one month.
        - QL FOR LETTER: Titration dose: 35 packets per 28 days; Maintenance dose: 56 packets per 28 days
- Renewals Requests: *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*
    - QL FOR LETTER ONLY: 56 packets per 28 days

**RE-AUTHORIZATION CRITERIA:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an

additional 12 months or less if the reviewing provider feels it is medically appropriate and will require the following criteria:

- Medical record documentation that member is tolerating and compliant with prescribed Relyvrio regimen **AND**
- Medical record documentation of regular physician follow-up

If an exception is made, Relyvrio will be paid for under the member's prescription drug benefit.

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Tosymra for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Tosymra may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Tosymra is being used for the acute treatment of migraines with or without aura **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) generic formulary triptans, one of which much be generic sumatriptan nasal spray

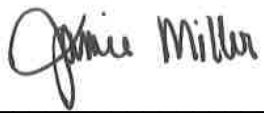
**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 16 doses per 28 days (Dose limit applies across all oral triptan products.)

If an exception is made, Tosymra will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

naratriptan, rizatriptan, sumatriptan, zolmitriptan

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical

An exception for coverage of Rezlidhia may be made for members who meet the following criteria:

- Medical record documentation that Rezlidhia is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of relapsed or refractory acute myeloid leukemia (AML) **AND**
- Medical record documentation of an isocitrate dehydrogenase-1 (IDH1) mutation as detected by a Food and Drug Administration (FDA) approved test*

***NOTE:** The FDA approved companion diagnostic test for Rezlidhia is Abbott RealTime IDH1.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for one month duration

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

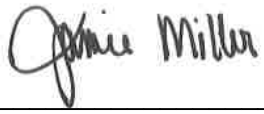
- QL FOR LETTER ONLY: 2 capsules per day, 30 day supply per fill

| Geisinger<br><br>**POLICY AND PROCEDURE MANUAL** | **POLICY NUMBER: 756.0**<br><br>**SECTION: Commercial Drug**<br>**SUBJECT:** Rezlidhia |
|---|---|

**RE-AUTHORIZATION CRITERIA:** Rezlidhia is configured as a prior authorization for new starts only. Rezlidhia will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If an exception is made, Rezlidhia will be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**SUBJECT:** Cayston Inhalation Solution

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Cayston Inhalation Solution for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Cayston Inhalation Solution may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of cystic fibrosis **AND**
- Medical record documentation that Cayston Inhalation Solution is prescribed by a pulmonologist or infectious disease specialist **AND**
- Medical record documentation of age greater than or equal to 7 years **AND**
- Medical record documentation that pseudomonas aeruginosa is positive in sputum, mouth swab or other cultures of the airway **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to the use of tobramycin inhalation solution

The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Xaciato for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Xaciato may be made for members who meet the following criteria:

- Medical record documentation of bacterial vaginosis **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) formulary alternatives, one of which must be clindamycin 2% vaginal cream

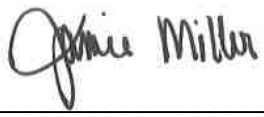
**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, RX count 1

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 5 grams (1 tube) per 30 days

If an exception is made, Xaciato will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

metronidazole tablets, metronidazole vaginal gel, clindamycin vaginal cream, Clindesse vaginal cream, Cleocin vaginal suppositories, tinidazole

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Arikayce may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Arikayce is prescribed by a pulmonologist, infectious disease specialist, or *Mycobacterium avium* complex (MAC) lung disease specialist **AND**
- Medical record documentation of a diagnosis of Mycobacterium avium complex (MAC) lung disease as confirmed by a MAC-positive sputum culture **AND**
- Medical record documentation that the patient has **NOT** achieved negative sputum cultures after a minimum of 6 consecutive months of receiving a multidrug background regimen containing at least 2 to 3 of the following agents:
    - Macrolide antibiotic [e.g., azithromycin, clarithromycin]
        - If macrolide-resistant [clofazimine]
    - Rifamycin antibiotic [e.g., rifampin, rifabutin]
    - Ethambutol **AND**
- Medical record documentation that Arikayce will be used in conjunction with a multidrug background regimen, including 2 to 3 of the following agents:
    - Macrolide antibiotic [e.g., azithromycin, clarithromycin]
        - If macrolide-resistant [clofazimine]
    - Rifamycin antibiotic [e.g., rifampin, rifabutin]
    - Ethambutol

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 vial per day, 28 day supply per fill

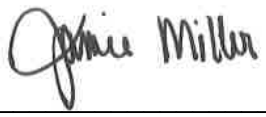
**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Reauthorization will be for an additional 12 months and will require the following:

- Medical record documentation that Arikayce is prescribed by a pulmonologist, infectious disease specialist, or *Mycobacterium avium* complex (MAC) lung disease specialist **AND**
- Medical record documentation that Arikayce will continue to be used in conjunction with a multidrug background regimen, including 2 to 3 of the following agents:
    - Macrolide antibiotic [e.g., azithromycin, clarithromycin]
        - If macrolide-resistant [clofazimine]
    - Rifamycin antibiotic [e.g., rifampin, rifabutin]
    - Ethambutol **AND**
- Medical record documentation of one of the following:
    - Medical record documentation that patient has achieved a negative sputum culture for *Mycobacterium avium* complex (MAC) in last 6 months

    **OR**
    - Medical record documentation that patient has **NOT** achieved a negative sputum culture for *Mycobacterium avium* complex (MAC) **AND**
    - Medical documentation of physician attestation that the member has demonstrated clinical benefit while on Arikayce

If an exception is made, Arikayce will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

azithromycin, clarithromycin, clofazimine, rifampin, rifabutin, ethambutol

**SECTION: Commercial Drug**
**SUBJECT:** Daybue

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Daybue for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Daybue may be made for members who meet the following criteria:

- Medical record documentation that Daybue is prescribed by or in consultation with a neurologist **AND**
- Medical record documentation of age greater than or equal to 2 years **AND**
- Medical record documentation of the *MECP2* gene **AND**
- Medical record documentation of diagnosis of classic, or typical Rett Syndrome* **AND**
- Medical record documentation of a member's baseline symptoms using an appropriate rating scale (e.g., Rett syndrome behaviour questionnaire, simplified severity score, Clinical Global Impression-Improvement assessment) **AND**
- Medical record documentation that Daybue is appropriately dosed

***NOTE:** Below outlines diagnosis of classic, or typical Rett Syndrome

1. A period of regression followed by recovery or stabilization **AND**
2. ALL of the following
    a. Partial or complete loss of acquired purposeful hand skills
    b. Partial or complete loss of acquired spoken language
    c. Gait abnormalities: Impaired (dyspraxic) or absence of ability
    d. Stereotypic hand movements such as hand wringing/squeezing, clapping/tapping, mouthing, and washing/rubbing automatisms **AND**
3. NONE of the following
    a. Brain injury secondary to trauma (peri- or postnatally), neurometabolic disease, or severe infection that causes neurologic problems
    b. Grossly abnormal psychomotor development in the first six months of life

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 120 mL per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 3 months or less if the provider feels it is medically appropriate. For continued coverage, the following criteria is required.

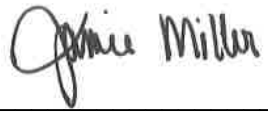
- Medical record documentation of clinical improvement in Rett syndrome symptoms as measured by an appropriate rating scale (compared to previous measurement)

Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate. For continued coverage, the follow criteria is required.

- Medical record documentation of clinical improvement in Rett syndrome symptoms as measured by an appropriate rating scale (compared to previous measurement)

If an exception is made, Daybue will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**SECTION: Commercial Drug**
**SUBJECT:** Filspari

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Filspari for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Filspari may be made for members who meet the following criteria:

- Medical record documentation of primary immunoglobulin A nephropathy (IgAN) verified by biopsy **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Filspari is prescribed by or in consultation with a nephrologist **AND**
- Medical record documentation that member is at high risk of disease progression, defined as urine protein-to-creatinine ratio (UPCR) greater than or equal to 1.5 g/g or proteinuria greater than or equal to 1 g/day **AND**
- Medical record documentation that member has received greater than or equal to 90 days of optimized supportive care, including blood pressure management, lifestyle modification, and cardiovascular risk modification **AND**
- Medical record documentation of estimated glomerular filtration rate (eGFR) greater than or equal to 30 mL/min/1.73 $m^2$ **AND**
- Medical record documentation that member has received a stable dose of a renin-angiotensin system (RAS) inhibitor (angiotensin-converting enzyme [ACE] inhibitor or angiotensin receptor blocker [ARB]) at a maximally tolerated dose for greater than or equal to 90 days **AND**
- Medical record documentation that (RAS) inhibitor (angiotensin-converting enzyme [ACE] inhibitor or angiotensin receptor blocker [ARB]) will be discontinued prior to initiation of treatment with Filspari **AND**
- Medical record documentation that Filspari will NOT be used in combination with any (RAS) inhibitors (angiotensin-converting enzyme [ACE] inhibitor or angiotensin receptor blocker [ARB]), endothelin receptor antagonists, or aliskiren

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

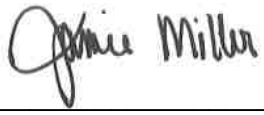
- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for nine (9) months and subsequent approvals will be for twelve (12) months. Requests for continuation of coverage will be approved for members who meet the following criteria:

- Medical record documentation of continued disease improvement or lack of disease progression according to prescriber (i.e., decreased levels of proteinuria from baseline or decreased urine protein-to-creatinine ratio (UPCR) from baseline) **AND**
- Medical record documentation that Filspari will NOT be used in combination with any (RAS) inhibitors (angiotensin-converting enzyme [ACE] inhibitor or angiotensin receptor blocker [ARB]), endothelin receptor antagonists, or aliskiren

If an exception is made, Filspari will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

**ARB:** candesartan, losartan, irbesartan, olmesartan, telmisartan, valsartan
**ARB/diuretic combinations:** candesartan/hctz, irbesartan/hctz, losartan/hctz, olmesartan/hctz, telmisartan/hctz, valsartan/hctz
**ACE inhibitors:** benazepril, captopril, enalapril, fosinopril, lisinopril, moexipril, quinapril, trandolapril, ramipril
**ACE inhibitors/diuretic combinations:** captopril/hctz, benazepril/hctz, enalapril/hctz, lisinopril/hctz, moexipril/hctz

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

Geisinger

**POLICY AND PROCEDURE MANUAL**

**POLICY NUMBER: 767.0**

**SECTION: Commercial Drug**
**SUBJECT:** Skyclarys

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Skyclarys for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Skyclarys may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 16 years **AND**
- Medical record documentation that Skyclarys is prescribed by or in consultation with a neurologist **AND**
- Medical record documentation of a diagnosis of Friedrich's Ataxia **AND**
- Medical record documentation of genetic testing confirming Frataxin (FXN) gene mutation **AND**
- Medical record documentation of baseline modified Friedreich's Ataxia Rating Scale (mFARS) score

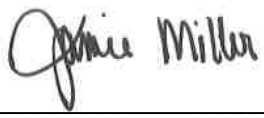
**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 3 capsules per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 12 months. Subsequent approvals will be for an additional 12 months and will require:

- Medical record documentation that the member is responding positively to therapy as evidenced by slowed disease progression or documentation of a positive clinical response (ex. through mFARS-modified functional assessment rating scale)



If an exception is made, Skyclarys will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**SUBJECT:** Lumryz

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Lumryz for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Lumryz may be made for members who meet the following criteria:

- Medical record documentation of use for a Food and Drug Administration (FDA) approved indication **AND**
- Medical record documentation of age greater than or equal to 7 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to modafinil, methylphenidate immediate release **OR** amphetamine/dextroamphetamine immediate release

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 9 grams per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. For continued coverage, the following is required:

- Medical record documentation of reduction in frequency of cataplexy attacks **OR**
- Medical record documentation of reduction in symptoms of excessive daytime sleepiness

After the initial 12 month approval, subsequent approvals will be for a duration of 12 months. Reevaluation will be every 12 months requiring the following:

- Medical record documentation of continued or sustained reduction in frequency of cataplexy attacks **OR**
- Medical record documentation of continued or sustained reduction in symptoms of

excessive daytime sleepiness

If an exception is made, Lumryz will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Veozah for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Veozah may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of menopause with moderate to severe vasomotor symptoms (VMS) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least three (3) different medications from at least two (2) of the following categories:
    - Estrogens
    - Non-Hormonal Agents

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If an exception is made, Veozah will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

Pharmaceuticals for chronic weight management are not covered, except for certain clients that request this benefit.

An exception for coverage of Saxenda may be made for members who meet the following criteria:

- Medical record documentation that member has participated in comprehensive lifestyle modifications including reduced-calorie diet, physical activity, and behavioral health for at least 3 months prior to beginning Saxenda **AND**
- Medical record documentation of use as adjunct therapy to reduced calorie diet and increased physical activity for chronic weight management **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of age greater than or equal to 18 years with one of the following:
        - Medical record documentation of body mass index (BMI) greater than or equal to 30 kg/$m^2$ **OR**
        - Medical record documentation of body mass index (BMI) greater than or equal to 27 kg/$m^2$ and at least one weight-related comorbid condition (e.g., hypertension, type 2 diabetes mellitus, or dyslipidemia) **AND**
    - Medical documentation of age greater than or equal to 12 years and less than 18 years with body weight above 60 kg and an initial body mass index (BMI) corresponding to 30 kg/m2 for adults by international cut-offs (Cole Criteria) **AND**
- Medical documentation of therapeutic failure to Wegovy

**NOTE:** Saxenda is not indicated for treatment of chronic weight management:

- In combination with liraglutide containing products or any other GLP-1 receptor agonist
- In combination with other products for weight loss, as safety and efficacy or coadministration has not been established
- In pediatric patients with type 2 diabetes
- In patients with acute pancreatitis. Caution in patients with history of pancreatitis.
- In patients with personal or family history of medullary thyroid C-cell carcinoma or Multiple Endocrine Neoplasia syndrome type 2
- In known hypersensitivity to liraglutide or any of the excipients
- In pregnancy

**MEDISPAN APPROVAL LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 6 months and will require:

- Medical record documentation that the member continues to experience clinical benefit from Saxenda based on the prescriber's assessment **AND**
- Medical record documentation that member has experienced at least a 4% reduction in weight from baseline.

If an exception is made, Saxenda will be paid for under the member's prescription drug benefit.

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Contrave for GHP members who have prescription drug benefits, including Commercial and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

Pharmaceuticals for chronic weight management are not covered, except for certain clients that request this benefit.

An exception for coverage of Contrave may be made for members who meet the following criteria:

- Medical record documentation that member has participated in comprehensive lifestyle modifications including reduced-calorie diet, physical activity, and behavioral health for at least 3 months prior to beginning Contrave **AND**
- Medical record documentation of use as adjunct therapy to reduced calorie diet and increased physical activity for chronic weight management **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of body mass index (BMI) greater than or equal to 30 $kg/m^2$ **OR**
    - Medical record documentation of body mass index (BMI) greater than or equal to 27 $kg/m^2$ and at least one weight-related comorbid condition (e.g., hypertension, type 2 diabetes mellitus, or dyslipidemia) **AND**
- Medical documentation of therapeutic failure to Wegovy

**NOTE:** Contrave is not indicated for treatment of chronic weight management:

- In patients with major depressive disorder or other psychiatric disorders due to increased risk of suicidal thinking and behavior
- In combination with bupropion containing products
- In combination with other products for weight loss, as safety and efficacy or coadministration has not been established
- In uncontrolled hypertension

- In patients with seizure disorders, anorexia nervosa or bulimia, or undergoing abrupt discontinuation of alcohol, benzodiazepines, barbiturates, and antiepileptic drugs
- In combination with chronic opioid use
- In concomitant use or within 14 days of taking monoamine oxidase inhibitors (MAOI)
- In known hypersensitivity to any ingredients of naltrexone/bupropion
- In pregnancy
- In pediatric patients

**MEDISPAN APPROVAL LEVEL:** GPI-12

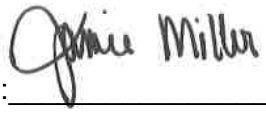
**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 6 months and will require:

- Medical record documentation that the member continues to experience clinical benefit from Contrave based on the prescriber's assessment **AND**
- Medical record documentation that member has experienced at least a 4% reduction in weight from baseline.

If an exception is made, Contrave will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**



Wegovy*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Qsymia for GHP members who have prescription drug benefits, including Commercial and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

Pharmaceuticals for chronic weight management are not covered, except for certain clients that request this benefit.

An exception for coverage of Qsymia may be made for members who meet the following criteria:

**Adults**

- Medical record documentation that member has participated in comprehensive lifestyle modifications including reduced-calorie diet, physical activity, and behavioral health for at least 3 months prior to beginning Qsymia **AND**
- Medical record documentation of use as adjunct therapy to reduced calorie diet and increased physical activity for chronic weight management **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of body mass index (BMI) greater than or equal to 30 $kg/m^2$ **OR**
    - Medical record documentation of body mass index (BMI) greater than or equal to 27 $kg/m^2$ and at least one weight-related comorbid condition (e.g., hypertension, type 2 diabetes mellitus, or dyslipidemia) **AND**
- Medical documentation of therapeutic failure to Wegovy

**Pediatrics**

- Medical record documentation of age greater than or equal to 12 years and less than 18 years with an initial body mass index (BMI) in the 95th percentile or higher for age and sex **AND**
- Medical documentation of therapeutic failure to Wegovy

**NOTE:** Qsymia is not indicated for treatment of chronic weight management:

- In pregnancy

- In combination with other products for weight loss, as safety and efficacy or coadministration has not been established
- In patients with glaucoma
- In patients with hyperthyroidism
- In concomitant use or within 14 days of taking monoamine oxidase inhibitors (MAOI)
- In known hypersensitivity to any component of Qsymia or idiosyncrasy to sympathomimetic amines

**MEDISPAN APPROVAL LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 6 months and will require:

- Medical record documentation that the member continues to experience clinical benefit from Qsymia based on the prescriber's assessment **AND**
- Medical record documentation that member has experienced at least a 3% reduction in weight from baseline.

If an exception is made, Qsymia will be paid for under the member's prescription drug benefit.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Ozempic or liraglutide may be made for members who meet the following criteria:

**Ozempic or Liraglutide for Diabetes**

- Medical record documentation of a diagnosis of type II diabetes mellitus **AND**
- Therapeutic failure on, intolerance to, or contraindication to metformin **OR** any other oral antidiabetic drug

**Ozempic for CKD**

- Medical record documentation to reduce the risk of sustained estimated glomerular filtration rate (eGFR) decline, end-stage kidney disease and cardiovascular death in adults with a diagnosis of type 2 diabetes mellitus and chronic kidney disease

***NOTE:** Any one form of documentation is allowed (either ICD-10 code, medical records, chart notes, A1C or other lab confirming T2DM diagnosis).

**MEDISPAN APPROVAL LEVEL:** GPI-12, generic only if request is for liraglutide

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

QL FOR LETTER ONLY:

- Liraglutide: 9 mL per 30 days
- Ozempic: 3 mL per 28 days

**AUTHORIZATION DURATION:** Authorizations will be for a period of 1 year and will require:

- Medical record documentation that member has titrated to the appropriate maintenance dosage based on patient response and tolerability

**OR** if the above criteria is NOT met:

- The plan may provide a one-time three (3) month authorization for the requested medication during a period of titration to the appropriate maintenance dose in accordance with the accepted standards of care and package labeling for patients requiring a slower titration based on tolerability

**Ozempic for Weight Loss**

New starts on Ozempic for weight loss will not be permitted. Members that were approved to receive liraglutide for weight loss prior to 1/1/2025 that have failed therapy may be eligible to receive Ozempic if the following criteria are met:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of one of the following:
  - Ozempic is managed by Geisinger Nutrition and Weight Management or Geisinger Endocrinology **OR**
  - Member resides outside of Pennsylvania **AND**
- Medical record documentation of body mass index (BMI) greater than or equal to 30 $kg/m^2$ **AND**
- Medical record documentation of therapeutic failure of liraglutide defined as failure to achieve a 10% weight loss after 6 months of liraglutide therapy

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for 12 months. Reauthorization will require the following be met:

- Medical record documentation of 5% weight loss **AND**
- Medical record documentation of one of the following:
  - Ozempic is managed by Geisinger Nutrition and Weight Management or Geisinger Endocrinology **OR**
  - Member resides outside of Pennsylvania

**MEDISPAN APPROVAL LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

QL FOR LETTER ONLY: Ozempic: 3 mL per 28 days

**Authorization for Ozempic and liraglutide will be ended if the member fails to fill the prescription within the 8 weeks following the next need by date.**

If an exception is made, liraglutide or Ozempic will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

Geisinger

**POLICY AND PROCEDURE MANUAL**

**POLICY NUMBER: 783.0**

**SECTION: Commercial Drug**
**SUBJECT:** Akeega

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Akeega for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical

An exception for coverage of Akeega may be made for members who meet the following criteria:

- Medical record documentation that Akeega is prescribed by an oncologist or urologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of metastatic castration-resistant prostate cancer (mCRPC) **AND**
- Medical record documentation of deleterious or suspected deleterious BRCA-mutation (BRCAm) as detected by a Food and Drug Administration (FDA)-approved test **AND**
- Medical record documentation that Akeega will be given in combination with prednisone **AND**
- Medical record documentation of one of the following:
    - Medical record documentation that Akeega will be given concurrently with a gonadotropin-releasing hormone (GnRH) **OR**
    - Medical record documentation that member has had bilateral orchiectomy

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for one month duration

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Akeega is configured as a prior authorization for new starts only. Akeega will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If an exception is made, Akeega will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Brenzavvy for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Brenzavvy may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of type 2 diabetes mellitus (T2DM) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Jardiance

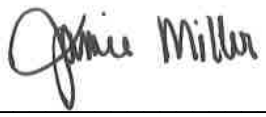
**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If an exception is made, Brenzavvy will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

Jardiance, Synjardy

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical

An exception for coverage of Vanflyta may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Vanflyta is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of newly diagnosed acute myeloid leukemia (AML) **AND**
- Medical record documentation that member is FLT3 internal tandem duplication (ITD)-positive as detected by a Food and Drug Administration (FDA)-approved test* **AND**
- Medical record documentation that Vanflyta will be used in combination with standard cytarabine and anthracycline induction, in combination with cytarabine consolidation, and as maintenance monotherapy following consolidation chemotherapy (excludes maintenance monotherapy following allogeneic hematopoietic stem cell transplantation)

**NOTE:** The FDA-approved test for FLT3-ITD positive AML is LeukoStrat CDx FLT3 Mutation Assay

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

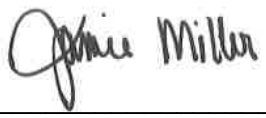
- QL FOR LETTER ONLY: 2 tablets per day, 28 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Initial approval will be for 6 months. Subsequent approvals will be for 6 months and will require medical record documentation of continued disease improvement or lack of disease progression. The medication will no longer be covered if patient experiences toxicity or worsening of disease.

Authorization of Vanflyta for the treatment of FLT3-ITD positive acute myeloid leukemia (AML) should not exceed the FDA-approved treatment duration of 2 cycles of induction, up to 4 cycles of consolidation, and up to 36 cycles as maintenance. For requests exceeding the above limit, medical record documentation of the following is required:

- Peer-reviewed literature citing well-designed clinical trials to indicate that the member's healthcare outcome will be improved by dosing beyond the FDA-approved treatment duration

If an exception is made, Vanflyta will be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

**For adult rheumatoid arthritis, polyarticular juvenile idiopathic arthritis or juvenile rheumatoid arthritis, psoriatic arthritis, ankylosing spondylitis, Crohn's disease, plaque psoriasis, adult ulcerative colitis, adult hidradenitis suppurativa, adult non-infectious intermediate, posterior, and panuveitis**

An exception for coverage of a non-preferred adalimumab biosimilar or Humira may be made for members who meet the following criteria:

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Amjevita

**NOTE: HUMIRA MAINTAINS BRAND EXCLUSIVITY FOR PEDIATRIC UVEITIS, PEDIATRIC ULCERATIVE COLITIS, AND ADOLESCENT HIDRADENITIS SUPPURATIVA**

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of treated condition on adalimumab therapy is required.

**MEDISPAN AUTHORIZATION LEVEL:** NDC-9

| Geisinger<br><br>**POLICY AND PROCEDURE MANUAL** | **POLICY NUMBER: 788.0**<br><br>**SECTION: Commercial Drug**<br>**SUBJECT:** Non-Preferred Adalimumab Biosimilars and Humira |
|---|---|

**QUANTITY LIMITS:** *See adalimumab quantity limit reference document.*

Adalimumab
Quantity Limits.xlsx

**FORMULARY ALTERNATIVES:**

Amjevita*

*prior authorization required

**Humira for Pediatric Ulcerative Colitis**
An exception for coverage of **BIWEEKLY (every other week) administration** of Humira may be made for members who meet all the following criteria:

- Medical record documentation of a diagnosis of moderate to severe ulcerative colitis **AND**
- Medical record documentation that adalimumab is prescribed by a gastroenterologist **AND**
- Medical record documentation of age greater than or equal to 5 years and less than 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, at least one conventional therapy: corticosteroids, aminosalicylates, or immunomodulators (azathioprine or 6-mercaptopurine (6-MP)) **AND**
- Medical record documentation that Humira is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

An exception for coverage of **WEEKLY administration** of Humira may be made for members who meet all the following criteria:

- Medical record documentation of a diagnosis of moderate to severe ulcerative colitis **AND**
- Medical record documentation that adalimumab is prescribed by a gastroenterologist **AND**
- Medical record documentation of age greater than or equal to 5 years and less than 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least one conventional therapy: corticosteroids, aminosalicylates, or immunomodulators (e.g., 6-mercaptopurine or azathioprine) **AND**
- Medical record documentation that Humira is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent **AND**
- Medical record documentation that the member is less than 18 years of age and receiving an appropriate dose based on body weight

**NOTE:**

- For patients with an adequate drug trough, American Gastroenterological Association (AGA) does not recommend antibody levels to guide therapy. Patients should be switched to another agent.
- For patients with an inadequate drug trough & undetectable antibodies, a dose increase may be warranted.
- For patients with an inadequate drug trough & detectable antibodies, a switch to another agent is recommended. However, patients with low antibody levels may be considered for a dose increase, in hopes of overcoming antibody level and achieving response.

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of ulcerative colitis on Humira therapy is required.

**MEDISPAN AUTHORIZATION LEVEL:** NDC-9

**QUANTITY LIMIT:** *See adalimumab quantity limit reference document.*

Adalimumab
Quantity Limits.xlsx

**FORMULARY ALTERNATIVES:**
azathioprine, 6-mercaptopurine

**Humira for Pediatric Hidradenitis Suppurativa (HS)**
An exception for coverage of Humira may be made for members who meet all the following criteria:

- Medical record documentation that Humira is prescribed by a dermatologist **AND**
- Medical record documentation of age greater than or equal to 12 years and less than 18 years **AND**
- Medical record documentation of a diagnosis of moderate to severe hidradenitis suppurativa (HS), defined as Stage II or III on the Hurley staging system* **AND**
- Medical record documentation of at least 3 abscesses or inflammatory nodules **AND**
- Medical record documentation of concomitant use of oral or systemic antibiotics **AND**
- Medical record documentation that the member has received counseling on weight management (if overweight) and smoking cessation (if the member is an active smoker) **AND**
- For members 12 to 18 years of age weighing 30 to less than 60 kg: medical record documentation of Humira being dosed at a maximum dose of 40 mg every other week **AND**
- Medical record documentation that Humira is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

*Hurley staging system:
- Stage I: A single lesion without sinus tract formation.
- Stage II: More than one lesion or area, but with limited tunneling.
- Stage III: Multiple lesions, with more extensive sinus tracts and scarring.

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of hidradenitis suppurativa on Humira therapy is required.

**MEDISPAN AUTHORIZATION LEVEL:** NDC-9

**QUANTITY LIMIT:** *See adalimumab quantity limit reference document.*

**POLICY AND PROCEDURE MANUAL**

**POLICY NUMBER: 789.0**

**SECTION: Commercial Drug**
**SUBJECT:** Litfulo

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Litfulo for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Litfulo may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of severe alopecia areata, defined as at least 50% scalp hair loss as measured by the Severity of Alopecia Tool (SALT) **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to one of the following:
    - Systemic therapy used for at least 3 months (for example, corticosteroids, methotrexate, cyclosporine) **OR**
    - Prescription topical corticosteroids used for at least 28 days **OR**
    - Intralesional corticosteroids used for at least 3 months **AND**
- Medical record documentation that member does not have hair loss due to androgenetic alopecia (includes male and female pattern hair loss), chemotherapy-induced hair loss, or other causes of hair loss other than alopecia areata **AND**
- Medical record documentation that Litfulo is not prescribed in combination with other Janus kinase inhibitors, biologic immunomodulators, cyclosporine, or other potent immunosuppressants

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

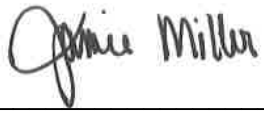
**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of alopecia areata on Litfulo therapy is required.

If an exception is made, Litfulo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

prednisone, methylprednisolone, dexamethasone, prednisolone
**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)
**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)
**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)
**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam (Temovate/Clobex/Olux); diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E); fluocinonide 0.1% cream (Vanos); halobetasol 0.05% cream and ointment (Ultravate)

- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical

An exception for coverage of Truqap may be made for members who meet the following criteria:

- Medical record documentation that Truqap is prescribed by an oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of locally advanced or metastatic breast cancer that is hormone receptor-positive, HER2-negative (HR+/HER2-) **AND**
- Medical record documentation of one or more PIK3CA, AKT1, or PTEN-alteration determined using a Food and Drug Administration (FDA) approved test **AND**
- Medical record documentation that Truqap is being prescribed in combination with fulvestrant **AND**
- Medical record documentation of one of the following:
    - Documentation of therapeutic failure on, intolerance to, or contraindication to prior endocrine therapy **OR**
    - Documentation of recurrence on or within 12 months of completing adjuvant therapy

**NOTE:** The FDA approved test is the *FoundationOneCDx.*

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for one month duration

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 64 tablets per 28 days

**RE-AUTHORIZATION CRITERIA:** Truqap is configured as a prior authorization for new starts only. Truqap will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If an exception is made, Truqap will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Endocrine Therapy: exemestane, letrozole, anastrozole, tamoxifen, toremifene

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical

An exception for coverage of Ogsiveo may be made for members who meet the following criteria:

- Medical record documentation that Ogsiveo is prescribed by a hematologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of desmoid tumor(s) / aggressive fibromatosis (AF) with documentation of progression **AND**
- Medical record documentation the desmoid tumor(s) are not amenable to surgery **AND** require systemic treatment

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for one month duration

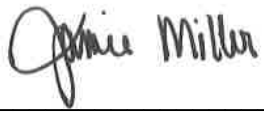
**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 6 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Ogsiveo is configured as a prior authorization for new starts only. Ogsiveo will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If an exception is made, Ogsiveo will be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Breyna for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Breyna may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 6 years **AND**
- Medical record documentation of a diagnosis of asthma **OR** chronic obstructive pulmonary disease (COPD)
- Medical record documentation of therapeutic failure on generic budesonide/formoterol **AND** generic fluticasone/salmeterol diskus

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 10.3 grams per 30 days

If an exception is made, Breyna will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Velsipity for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical

An exception for coverage of Velsipity may be made for members who meet the following criteria:

- Medical record documentation that Velsipity is prescribed by a gastroenterologist **AND**
- Medical record documentation of a diagnosis of moderate to severe ulcerative colitis **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) preferred formulary biologics for the treatment of ulcerative colitis that are self-administered **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Entyvio **AND** infliximab **AND**
- Medical record documentation that Velsipity is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

| Geisinger<br><br>**POLICY AND PROCEDURE MANUAL** | **POLICY NUMBER: 804.0**<br><br>**SECTION: Commercial Drug**<br>**SUBJECT:** 804.0 Velsipity |
|---|---|

**AUTHORIZATION DURATION:** Approval will be given for an initial duration of six (6) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in the signs and symptoms of ulcerative colitis at six (6) months of Velsipity therapy is required.

After the initial six (6) month approval, subsequent approvals for coverage will be for a duration of one (1) year requiring medical record documentation of continued or sustained improvement in the signs and symptoms of ulcerative colitis while on Velsipity therapy.

If an exception is made, Velsipity will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Amjevita*, Rinvoq*, Xeljanz/XR*, Simponi*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Wilate may be made for members who meet the following criteria:

**<u>For the treatment of Von Willebrand disease</u>**

- Medical record documentation of a diagnosis of Von Willebrand disease **AND**
- Medical record documentation that Wilate is being prescribed for outpatient use in the outpatient setting **AND**
- Medical record documentation of use for routine prophylaxis to reduce the frequency of bleeding episodes, treatment and control of bleeding episodes or for perioperative management **AND**
- If request is for routine prophylaxis, medical record documentation of age greater than or equal to 6 years **AND**
- Medical record documentation of therapeutic failure on, contraindication, or intolerance to desmopressin acetate in members 2 years of age and older with VWD type 1, 2A, 2M, or 2N

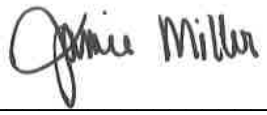
**NOTE:** Desmopressin is not recommended in type 2B VWD and is contraindicated in type 3 VWD.

**<u>For the treatment of Hemophilia A</u>**

- Medical record documentation of a diagnosis of hemophilia A (a documented factor VIII deficiency) **AND**
- Medical record documentation that the antihemophilic agent will be used for outpatient use in the outpatient setting **AND**

- Medical record documentation that Wilate is being prescribed for routine prophylaxis to reduce the frequency of bleeding episodes or for on-demand treatment and control of bleeding episodes **AND**
- If request is for routine prophylaxis, medical record documentation of age greater than or equal to 12 years

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12



If an exception is made, Wilate will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
Von Willebrand type 1, 2A, 2M, or 2N: desmopressin

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**SECTION: Commercial Drug**
**SUBJECT:** Agamree

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Agamree for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Agamree may be made for members who meet the following criteria:

- Medical record documentation that Agamree is prescribed by a neurologist or pediatric neurologist **AND**
- Medical record documentation of interdisciplinary team involvement including, but not limited to, neurology, pulmonology, and cardiology **AND**
- Medical record documentation of a diagnosis of Duchenne muscular dystrophy (DMD), confirmed by genetic testing **AND**
- Medical record documentation of age greater than or equal to 2 years **AND**
- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to prednisone and deflazacort

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 300 mL per 30 days

If an exception is made, Agamree will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Bimzelx may be made for members who meet the following criteria:

**For treatment of plaque psoriasis (PsO)**

- Medical record documentation that Bimzelx is prescribed by a dermatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of moderate to severe plaque psoriasis characterized by greater than or equal to 3% of body surface area involved or disease involving crucial body areas such as the hands, feet, face, or genitals **AND**
- Medical record documentation of an intolerance to, contraindication to or therapeutic failure on four (4) preferred formulary biologics for the treatment of psoriasis **AND**
- Medical record documentation that Bimzelx is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent **AND**
- If the requested maintenance dosage is 320 mg every 4 weeks, medical record documentation that the prescribed dosing is appropriate for member’s weight

**NOTE:** In members weight greater than or equal to 120 kilograms, a dosage of 320 mg every 4 weeks can be considered after the initial loading doses.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *QLs must be entered within the authorization.*

- 320 mg at Weeks 0, 4, 8, 12, and 16, then 320 mg every 8 weeks
    1. In NCRx: Add Treat as “Include” Process Modifier, Ignore Misc Handler, 5 in Max Scripts, Max Script Quantity 2, and Max Script Days 28 with a duration of sixteen weeks.
    2. In PA Hub: Add Treat as "Include Process Modifier" with a start date 1 day after the loading dose ends for the remainder of the authorization.
        - QL for letter: Loading dosage: 2 milliliters per 28 days, Maintenance dose: 2 milliliters per 56 days
- 320 mg every 4 weeks
    1. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, Max Script Quantity 2, and Max Script Days 28
        - QL for letter: 2 milliliters every 28 days

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of plaque psoriasis on Bimzelx therapy is required.

**FORMULARY ALTERNATIVES:**

Enbrel*, Amjevita*, Otezla*, Skyrizi*, Tremfya*, Cosentyx*, Cimzia*

*prior authorization required

**For treatment of psoriatic arthritis (PsA)**

- Medical record documentation that Bimzelx is prescribed by a rheumatologist or dermatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of active psoriatic arthritis which must include documentation of either active psoriatic lesions or a documented history of psoriasis **AND**
- Medical record documentation of an intolerance to, contraindication to or therapeutic failure on four (4) preferred formulary biologics for the treatment of psoriatic arthritis **AND**
- Medical record documentation that Bimzelx is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent **AND**
- If the requested dose is greater than 160mg every 4 weeks, medical record documentation that the member has coexisting moderate to severe plaque psoriasis and is prescribed dosing that is appropriate for member's weight

**NOTE:** In members with coexisting moderate to severe plaque psoriasis and weight greater than or equal to 120 kilograms, a dosage of 320 mg every 4 weeks can be considered after the initial loading doses.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *QLs must be entered within the authorization.*

- 160 mg every 4 weeks
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, Max Script Quantity 1, and Max Script Days 28
        - QL for letter: 1 milliliter every 28 days
- 320 mg at Weeks 0, 4, 8, 12, and 16, then 320 mg every 8 weeks
    1. In NCRx: Add Treat as "Include" Process Modifier, Ignore Misc Handler, 5 in Max Scripts, Max Script Quantity 2, and Max Script Days 28 with a duration of sixteen weeks.
    2. In PA Hub: Add Treat as "Include Process Modifier" with a start date 1 day after the loading dose ends for the remainder of the authorization.
        - QL for letter: Loading dosage: 2 milliliters per 28 days, Maintenance dose: 2 milliliters per 56 days
- 320 mg every 4 weeks
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, Max Script Quantity 2, and Max Script Days 28
        - QL for letter: 2 milliliters every 28 days

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of psoriatic arthritis on Bimzelx therapy is required.

**FORMULARY ALTERNATIVES:**

Enbrel*, Amjevita*, Otezla*, Skyrizi*, Tremfya*, Cosentyx*, Cimzia*

*prior authorization required

**For treatment of non-radiographic axial spondylarthritis (nraxSpA)**

- Medical record documentation that Bimzelx is prescribed by a rheumatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of non-radiographic axial spondylarthritis **AND**
- Medical record documentation of at least one of the following:
    - C-reactive protein (CRP) level above the upper limit of normal (10 mg/dL) **OR**
    - Sacroiliitis on magnetic resonance imaging (MRI) **AND**
- Medical record documentation of an intolerance to, contraindication to or therapeutic failure on two (2) preferred formulary biologics for the treatment of non-radiographic axial spondyloarthritis **AND**
- Medical record documentation that Bimzelx is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *QLs must be entered within the authorization.*

- 160 mg every 4 weeks
    1. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, Max Script Quantity 1, and Max Script Days 28
        - QL for letter: 1 milliliter every 28 days

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of non-radiographic axial spondylarthritis on Bimzelx therapy is required.

**FORMULARY ALTERNATIVES:**

Cosentyx*, Cimzia*

*prior authorization required

**For treatment of ankylosing spondylitis (AS)**

- Medical record documentation that Bimzelx is prescribed by a rheumatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of ankylosing spondylitis **AND**
- Medical record documentation of an intolerance to, contraindication to or therapeutic failure on four (4) preferred formulary biologics for the treatment of ankylosing spondylitis **AND**
- Medical record documentation that Bimzelx is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *QLs must be entered within the authorization.*

- 160 mg every 4 weeks
    1. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, Max Script Quantity 1, and Max Script Days 28
        - QL for letter: 1 milliliter every 28 days

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of ankylosing spondylitis on Bimzelx therapy is required.

**FORMULARY ALTERNATIVES:**

Amjevita*, Enbrel*, Cosentyx*, Cimzia*

*prior authorization required

**For treatment of hidradenitis suppurativa (HS)**

- Medical record documentation that Bimzelx is prescribed by a dermatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of moderate to severe hidradenitis suppurativa,
- defined as Stage II or III on the Hurley staging system* **AND**
- Medical record documentation of at least 3 abscesses or inflammatory nodules **AND**
- Medical record documentation that the member has received counseling on weight management (if overweight) and smoking cessation (if the member is an active smoker) **AND**
- Medical record documentation of an intolerance to, contraindication to or therapeutic failure on four (4) preferred formulary biologics for the treatment of hidradenitis suppurativa **AND**
- Medical record documentation that Bimzelx is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

***NOTE:** Hurley staging system:

- Stage I: A single lesion without sinus tract formation.
- Stage II: More than one lesion or area, but with limited tunneling.
- Stage III: Multiple lesions, with more extensive sinus tracts and scarring.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

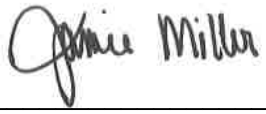
**QUANTITY LIMIT:** *QLs must be entered within the authorization.*

- 320 mg at Weeks 0, 4, 8, 12, and 16, then 320 mg every 8 weeks
    1. In NCRx: Add Treat as “Include” Process Modifier, Ignore Misc Handler, 5 in Max Scripts, Max Script Quantity 2, and Max Script Days 28 with a duration of sixteen weeks.
    2. In PA Hub: Add Treat as "Include Process Modifier" with a start date 1 day after the loading dose ends for the remainder of the authorization.
        - QL for letter: Loading dosage: 2 milliliters per 28 days, Maintenance dose: 2 milliliters per 56 days
- 320 mg every 4 weeks
    1. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, Max Script Quantity 2, and Max Script Days 28
        - QL for letter: 2 milliliters every 28 days

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of hidradenitis suppurativa on Bimzelx therapy is required.

**FORMULARY ALTERNATIVES:**

Amjevita*, Cosentyx*



*prior authorization required

If a formulary exception is approved Bimzelx will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Fabhalta may be made for members who meet the following criteria:

**<u>Paroxysmal Nocturnal Hemoglobinuria</u>**

- Medical record documentation of a diagnosis of paroxysmal nocturnal hemoglobinuria (PNH) **AND**
- Medical record documentation of flow cytometry confirming diagnosis **AND**
- Medical record documentation that Fabhalta is prescribed by a hematologist **AND**
- Medical record documentation that member has received vaccinations against encapsulated bacteria, including *Streptococcus pneumoniae, Neisseria meningitidis*, and *Haemophilus influenzae type B* **AND**
- Medical record documentation of one of the following:
    - member is transfusion-dependent (i.e., has at least 1 transfusion in the 24 months prior to initiation of iptacopan due to documented hemoglobin less than 7 g/dL in persons without anemic symptoms or less than 9 g/dL in persons with symptoms from anemia) prior to initiation of iptacopan treatment; **OR**
    - there is a significant adverse impact on the insured individual's health such as end organ damage or thrombosis without other cause

**AUTHORIZATION DURATION FOR PNH:** Initial approval will be for 6 months. Subsequent authorizations will be for 6 months and will require:

- Medical record documentation that hemolysis is controlled measured by lactic acid dehydrogenase (LDH) level less than 1.5 times the upper limit of normal (ULN) **AND**
- Medical record documentation of one of the following:
    - Reduced need or elimination of transfusion requirements **OR**

- Stabilization of hemoglobin levels

**Primary Immunoglobulin A Nephropathy**

- Medical record documentation of a diagnosis of primary immunoglobulin A nephropathy (IgAN) confirmed by biopsy **AND**
- Medical record documentation that Fabhalta will be used for reduction of proteinuria in members at risk of rapid disease progression defined as a urine protein-to-creatinine ratio (UPCR) of greater than or equal to 1.5 g/g or proteinuria greater than or equal to 1g/day **AND**
- Medical record documentation that Fabhalta is prescribed by a nephrologist **AND**
- Medical record documentation that member has received vaccinations against encapsulated bacteria, including *Streptococcus pneumoniae, Neisseria meningitidis,* and *Haemophilus influenzae type B* **AND**
- Medical record documentation of estimated glomerular filtration rate (eGFR) greater than or equal to 30 mL/min/1.73 $m^2$ **AND**
- Medical record documentation that member has received a stable dose of a RAS inhibitor (ACE inhibitor or ARB) at a maximally tolerated dose for greater than or equal to 90 days **AND**
- Medical record documentation that patient has received greater than or equal to 90 days of optimized supportive care, including blood pressure management, lifestyle modification, and cardiovascular risk modification

**AUTHORIZATION DURATION FOR IgAN:** Initial approval will be for 9 months. Subsequent authorizations will be for 12 months and will require:

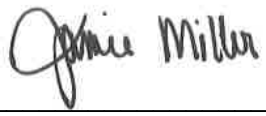
- Medical record documentation of continued disease improvement or lack of disease progression according to prescriber (i.e., decreased levels of proteinuria from baseline or decreased urine protein-to-creatinine ratio (UPCR) from baseline)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 capsules per day, 30 day supply per fill

If a formulary exception is approved Fabhalta will be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Jylamvo for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Jylamvo may be made for members who meet the following criteria:

**Acute Lymphoblastic Leukemia (ALL)**

- Medical record documentation of a diagnosis of acute lymphoblastic leukemia (ALL) as part of a combination chemotherapy maintenance regimen **AND**
- If 18 years of age or older, medical record documentation that member is unable to swallow tablets **OR** medical record documentation of therapeutic failure on, intolerance to, or contraindication to methotrexate tablets

**Relapsed or refractory non-Hodgkin lymphoma**

- Medical record documentation of a diagnosis of relapsed or refractory non-Hodgkin lymphoma as part of a metronomic combination chemotherapy regimen **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that member is unable to swallow tablets **OR** medical record documentation of therapeutic failure on, intolerance to, or contraindication to methotrexate tablets

**Mycosis fungoides**

- Medical record documentation of a diagnosis Mycosis fungoides (cutaneous T-cell lymphoma) as a single agent or part of combination chemotherapy regimen **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that member is unable to swallow tablets **OR** medical record documentation of therapeutic failure on, intolerance to, or contraindication to methotrexate tablets

**Rheumatoid arthritis**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of rheumatoid arthritis **AND**
- Medical record documentation that member is unable to swallow tablets **OR** medical record documentation of therapeutic failure on, intolerance to, or contraindication to methotrexate tablets

**Juvenile idiopathic arthritis**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of polyarticular juvenile idiopathic arthritis

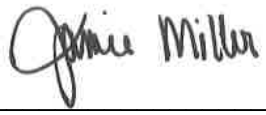
**Psoriasis**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of severe psoriasis characterized by greater than or equal to 5% of body surface area involved or disease involving crucial body areas such as the hands, feet, face, or genitals **AND**
- Medical record documentation that member is unable to swallow tablets **OR** medical record documentation of therapeutic failure on, intolerance to, or contraindication to methotrexate

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

If a formulary exception is approved Jylamvo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

methotrexate tablets

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Opfolda may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of late-onset Pompe disease supported by:
    - Acid alpha-glucosidase (GAA) assay performed on dried blood spots, skin fibroblasts or muscle biopsy **AND**
    - Genetic testing showing a mutation in the GAA gene **AND**
- Medical record documentation of a consultation with a metabolic specialist and/or biochemical geneticist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of baseline percent-predicted forced vital capacity (% FVC) and 6-minute walk test (6MWT) **AND**
- Medical record documentation of member weight greater than or equal to 40 kilograms **AND**
- Medical record documentation that Opfolda and Pombiliti will be used in combination **AND**
- Medical record documentation that member is currently receiving enzyme replacement therapy (e.g., Lumizyme, Nexviazyme) and is not experiencing improvement **AND**
- Medical record documentation that Pombiliti and Opfolda will not be used concurrently with other enzyme replacement therapy (e.g., Lumizyme, Nexviazyme)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will require the following:

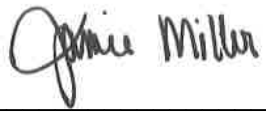
- Medical record documentation of improvement or stabilization in percent-predicted forced vital capacity (% FVC) and/or 6-minute walk test (6MWT) **AND**
- Medical record documentation of member weight greater than or equal to 40 kilograms **AND**
- Medical record documentation that Opfolda and Pombiliti will be used in combination **AND**
- Medical record documentation that Pombiliti and Opfolda will not be used concurrently with other enzyme replacement therapy (e.g., Lumizyme, Nexviazyme)

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 8 capsules per 28 days

If a formulary exception is approved Opfolda will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Wainua for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Wainua may be made for members who meet the following criteria:

- Medical record documentation that Wainua is prescribed by or in consultation with a neurologist, board-certified geneticist, or specialist with experience in the treatment of hereditary transthyretin-mediated amyloidosis (hATTR) **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of biopsy of tissue or organ to confirm amyloid presence **OR**
    - Medical record documentation of a clinical manifestation typical of hereditary transthyretin-mediated amyloidosis (hATTR) (i.e., neuropathy or congestive heart failure) without a better alternative explanation **AND**
- Medical record documentation that Wainua will be used to treat polyneuropathy **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of familial amyloid polyneuropathy (FAP) stage 1-2 **OR**
    - Medical record documentation of polyneuropathy disability score (PND) indicating the patient is not wheelchair bound or bedridden **AND**
- Medical record documentation that Wainua will not be used in combination with other RNA interference treatments **AND**
- Medical record documentation that member has been evaluated and treated by a contracted Center of Excellence in amyloidosis management **AND**
- Medical record documentation of an intolerance to, contraindication to, or therapeutic failure of two (2) preferred formulary treatments for hereditary transthyretin-mediated amyloidosis (hATTR)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Approval will be for a duration of 12 months. The medication will no longer be covered if the member progresses to FAP stage 3 and/or polyneuropathy disability score indicating the patient is wheelchair-bound or bedridden.

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 0.8 mL per 30 days

**NOTE:**

FAP stage:

1- unimpaired ambulation
2- assistance with ambulation
3- wheelchair-bound or bedridden

Polyneuropathy disability score:

I- preserved walking, sensory disturbances
II- impaired walking without need for stick/crutches
IIIa- walking with 1 stick/crutch
IIIb- walking with 2 sticks/crutches
IV- wheelchair-bound or bedridden

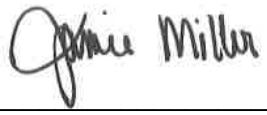
Polyneuropathy disability score (used in Neuro-TTR trial):

I- preserved walking, sensory disturbances
II- impaired walking without need for stick/crutches
III- walking with 1 stick/crutch
IV- walking with 2 sticks/crutches
V- wheelchair-bound or bedridden

If a formulary exception is approved Wainua will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**



Onpattro*, Amvuttra*, Tegsedi*

| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Zilbrysq for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Zilbrysq may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Zilbrysq is prescribed by or in consultation with a neurologist **AND**
- Medical record documentation of a diagnosis of generalized myasthenia gravis (gMG) that is anti-acetylcholine receptor (AChR) positive **AND**
- Medical record documentation of Myasthenia Gravis Foundation of America Clinical Classification (MGFA) Class II to IV **AND**
- Medical record documentation of a baseline Myasthenia Gravis-Activities of Daily Living (MG-ADL) score greater than or equal to 6 **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to corticosteroids **AND**
- Medical record documentation of therapeutic failure on intolerance to, or contraindication to at least two (2) non-steroidal immunosuppressive therapies **OR** has failed at least one (1) immunosuppressive therapy and required chronic plasmapheresis or plasma exchange (PE) **AND**
- Medical record documentation of failure on, intolerance to, or contraindication to intravenous immunoglobulin (IVIG)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Approval will be for a duration of 6 months. Subsequent approvals will be for an additional 6 months and will require:

- Medical record documentation of continued disease improvement or lack of disease progression **AND**
- Medical record documentation that the member is responding positively to therapy as evidenced by an improvement of Myasthenia Gravis-Activities of Daily Living (MG-ADL) total score from baseline

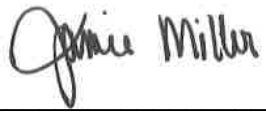
**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 16.6 mg/0.416 mL prefilled syringe: 0.416 mL per day, 28 days supply per fill
  - 23.0 mg/0.574 mL prefilled syringe: 0.574 mL per day, 28 days supply per fill
  - 32.4 mg/0.81 mL prefilled syringe: 0.81 mL per day, 28 days supply per fill

If a formulary exception is approved Zilbrysq will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**



Corticosteroids: dexamethasone, methylprednisolone, prednisone
Cholinesterase inhibitors: pyridostigmine
Immunosuppressants: azathioprine, mycophenolate, cyclosporine, Ruxience*, Riabni*, Truxima*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Alvaiz for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Alvaiz may be made for members who meet the following criteria:

**For Chronic Immune Thrombocytopenic Purpura (ITP)**

- Medical record documentation of a diagnosis of chronic immune (idiopathic) thrombocytopenic purpura (ITP) **AND**
- Medical record documentation that Alvaiz is prescribed by a hematologist **AND**
- Medical record documentation of a therapeutic failure on, or contraindication to ALL of the following: corticosteroids, immunoglobulins, and rituximab* **AND**
- Symptomatic ITP with bleeding symptoms and a platelet count of less than 30,000/µL **OR** a documentation history of significant bleeding and a platelet count of less than 30,000/µL **OR** a platelet count of less than 20,000/µL

**AUTHORIZATION DURATION:** If an exception is made, Alvaiz will be authorized for an initial period of three (3) months and continued coverage will require medical record documentation of improvement in symptoms and platelet count response above 20,000/µL. Subsequent authorizations will be for a period of six (6) months and will then require medical record documentation of dosing to maintain a platelet count between 50,000/µL and 100,000/µL.

**For Chronic Hepatitis C**

- Medical record documentation of a diagnosis of chronic hepatitis C and plan to initiate or continue interferon-based therapy **AND**
- Medical record documentation of a platelet count of less than 50,000/µL **AND**
- Medical record documentation that Alvaiz is prescribed by a gastroenterologist, hematologist, hepatologist or infectious disease specialist

**AUTHORIZATION DURATION:** If approved, the authorization will be for a time period of 6 months.

**For Severe Aplastic Anemia**

- Medical record documentation that Alvaiz is prescribed is written by a hematologist **AND**
- Medical record documentation of a platelet count less than or equal to 30,000/µL **AND**
- Medical record documentation of a diagnosis of severe aplastic anemia **AND**
- Medical record documentation of an inadequate response to at least one prior immunosuppressive therapy (e.g., cyclosporine, mycophenolate mofetil, sirolimus, Atgam® [lymphocyte immune globulin, anti-thymocyte globulin [equine] sterile solution for intravenous use only])

**AUTHORIZATION DURATION:** If an exception is made, Alvaiz will be authorized for an initial period of six (6) months and continued coverage will require medical record documentation of improvement in symptoms and a hematological response. Subsequent authorizations will be for a period of six (6) months and will then require medical record documentation of continued hematological response.

**NOTE:** Per UpToDate, hematologic response is defined as independence from transfusion, no need for additional immunosuppressive therapy, and/or improvement or peripheral blood counts to the point that they no longer meet criteria for severe aplastic anemia.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

If a formulary exception is approved Alvaiz will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Eohilia may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of eosinophilic esophagitis **AND**
- Medical record documentation of greater than or equal to 15 intraepithelial eosinophils per high-power field (eso/hpf) **AND**
- Medical record documentation of age greater than or equal to 11 years **AND**
- Medical record documentation that Eohilia is prescribed by or in consultation with an allergist, immunologist, or gastroenterologist **AND**
- Medical record documentation that the member is experiencing symptoms of dysphasia (for example: food refusal, food impaction, vomiting, coughing, pain with swallowing) **AND**
- Medical record documentation of contraindication to, intolerance to or therapeutic failure on a proton pump inhibitor **AND**
- Medical record documentation of contraindication to, intolerance to or therapeutic failure of on an inhaled respiratory glucocorticoid

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**AUTHORIZATION DURATION:** If an exception is made, Eohilia will be authorized for 12 weeks. Subsequent approval will require peer-reviewed literature citing well-designed clinical trials to indicate that the member's healthcare outcome will be improved by dosing beyond the Food and Drug Administration (FDA) approved treatment duration.

| Geisinger<br><br>**POLICY AND PROCEDURE MANUAL** | **POLICY NUMBER: 819.0**<br><br>**SECTION: Commercial Drug**<br>**SUBJECT:** Eohilia |
|---|---|

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 600 mL (60 packets) per 30 days

If a formulary exception is approved Eohilia will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Ojemda may be made for members who meet the following criteria:

- Medical record documentation that Ojemda is prescribed by or in consultation with a pediatric oncologist, neuro-oncologist, or oncologist **AND**
- Medical record documentation of age greater than or equal to 6 months **AND**
- Medical record documentation of a diagnosis of relapsed or refractory pediatric low-grade glioma (LDD) harboring a BRAF fusion or rearrangement, or BRAF V600 mutation

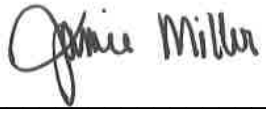
**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 6 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of continued disease improvement or lack of disease progression. The medication will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - Ojemda 100 mg tablet (4 blister cards (4 tablets each)) (NDC 82950-001-16): 16 tablets per 28 days
  - Ojemda 100 mg tablets (5 blister cards (4 tablets each)) (NDC 82950-001-20): 20 tablets per 28 days
  - Ojemda 100 mg tablets (4 blister cards (6 tablets each)) (NDC 82950-001-24): 24 tablets per 28 days
  - Ojemda 25 mg/mL suspension: 96 mL per 28 days

If a formulary exception is approved Ojemda will be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

4. ***ider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***NCQA*** – National Committee for Quality Assurance.
6. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Rezdiffra may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Rezdiffra is prescribed by or in consultation with an appropriate specialist (hepatologist or gastroenterologist) **AND**
- Medical record documentation of a diagnosis of metabolic dysfunction-associated steatohepatitis (MASH) [formerly known as noncirrhotic nonalcoholic steatohepatitis (NASH)] **AND**
- Medical record documentation of moderate to advanced liver fibrosis (consistent with stages F2 to F3 fibrosis) **AND**
- Medical record documentation of chart notes showing that diagnosis is confirmed by 1 of the following:
    - Liver biopsy **OR**
    - Non-invasive test (NIT) (e.g. – ultrasound elastography [i.e., Fibroscan], magnetic resonance elastography [MRE], biomarker labs [i.e., Enhanced Liver Fibrosis (ELF) test, Fibrosure]) **AND**
- Medical record documentation that Rezdiffra will be used in combination with diet and exercise **AND**
- Medical record documentation that the patient does not have decompensated cirrhosis

**NOTE:** As of June 2023, the nomenclature changed from nonalcoholic fatty liver disease (NAFLD) and nonalcoholic steatohepatitis (NASH) to metabolic dysfunction-associated steatotic liver disease (MASLD) and metabolic dysfunction-associated steatohepatitis

(MASH), respectively. There is not yet an ICD-10 code for MASH or MASLD. The wording used in the review matches the old nomenclature as used in the package labeling. Either NASH or MASH should be accepted during clinical review.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Initial approval will be for 12 months. Subsequent approvals will be for an additional 12 months and will require:

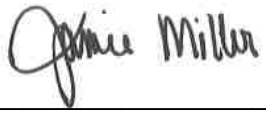
- Medical record documentation of continued disease improvement or lack of disease progression as evidenced by one of the following:
    - Metabolic dysfunction-associated steatohepatitis (MASH) [formerly known as noncirrhotic nonalcoholic steatohepatitis (NASH)] resolution **AND** no worsening of fibrosis **OR**
    - No worsening of metabolic dysfunction-associated steatohepatitis (MASH) [formerly known as noncirrhotic nonalcoholic steatohepatitis (NASH)] **AND** improvement in fibrosis by at least 1 stage

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

If a formulary exception is approved Rezdiffra will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Rivfloza for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Rivfloza may be made for members who meet the following criteria:

- Medical record documentation of primary hyperoxaluria type 1 (PH1) as confirmed by one of the following:
    - Molecular genetic testing that confirms a mutation of alanin:glyoxylate aminotransferase (AGXT) gene* **OR**
    - A liver biopsy to confirm absent or significantly reduced alanin:glyoxylate aminotransferase (AGT) **AND**
- Medical record documentation that Rivfloza is prescribed by or in consultation with an appropriate specialist with experience managing hyperoxaluria (i.e., a nephrologist, urologist, geneticist, or hepatologist) **AND**
- Medical record documentation of age greater than or equal to 2 years **AND**
- Medical record documentation of increased urinary oxalate excretion (i.e., generally greater than 0.7 mmol/1.73 $m^2$ per day or greater than the upper limit of normal) **AND**
- Medical record documentation of relatively preserved kidney function as defined by one of the following:
    - Medical record documentation patient has an estimated glomerular filtration rate (eGFR) greater than or equal to 30 mL/min/1.73$m^2$ **OR**
    - If estimated glomerular filtration rate (eGFR) is not calculated due to age limitations, a serum creatine within the normal age-specific reference range **AND**
- Medical record documentation that the member does not have a history of a liver transplant **AND**
- Medical record documentation that the member will not be receiving Rivfloza in combination with Oxlumo **AND**

- Medical record documentation of a prescribed dose and administration that is consistent with Food and Drug Administration (FDA)-approved package labeling, nationally recognized compendia, or peer-reviewed medical literature **AND**
- Medical record documentation of failure, contraindication, or intolerance to Oxlumo

***NOTE:** AGXT genotypes include but are not limited to: PR/RR, PR/M, PR/N, M/M, M/N, N/N

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**AUTHORIZATION DURATION:** Approval will be given for an **initial duration of six (6) months** or less if the reviewing provider feels it is medically appropriate. After the initial six (6) month approval, subsequent approvals will be for a **duration of twelve (12) months** or less if the reviewing provider feels it is medically appropriate, requiring:

- Medical record documentation of reduction in urinary oxalate excretion from baseline **AND**
- Medical record documentation of relatively preserved kidney function as defined by ONE of the following:
  - Medical record documentation patient has an estimated glomerular filtration rate (eGFR) greater than or equal to 30 mL/min/1.73m$^2$ **OR**
  - If estimated glomerular filtration rate (eGFR) is not calculated due to age limitations, a serum creatine within the normal age-specific reference range **AND**
- Medical record documentation that the patient does not have a history of liver transplant **AND**
- Medical record documentation that the member will not be receiving Rivfloza in combination with Oxlumo

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 160 mg/mL prefilled syringe: 1 mL (1 syringe) per 28 days
  - 128 mg/0.8 mL prefilled syringe: 0.8 mL (1 syringe) per 28 days
  - 80 mg/0.5 mL vial: 1 mL (2 vials) per 28 days

If a formulary exception is approved Rivfloza will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Voydeya may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of paroxysmal nocturnal hemoglobinuria (PNH) **AND**
- Medical record documentation that Voydeya is prescribed by a hematologist **AND**
- Medical record documentation that member has received vaccinations against encapsulated bacteria, including *Streptococcus pneumoniae* and *Neisseria meningitidis* **AND**
- Medical record documentation that member continues to experience clinically significant extravascular hemolysis (EVH)* despite at least 6 months of treatment with eculizumab or ravulizumab **AND**
- Medical record documentation that member will continue eculizumab or ravulizumab treatment in combination with Voydeya

***NOTE:** In clinical trials, clinically significant EVH was defined as anemia (hemoglobin [Hgb] ≤ 9.5 g/dL) with absolute reticulocyte count ≥ 120 x 109/L with or without transfusion support.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - Voydeya 100 mg tablets: 6 tablets per day, 30 day supply per fill
  - Voydeya 150 mg therapy pack: 6 tablets per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent authorizations will be for 6 months and will require:

- Medical record documentation that member continues to receive Voydeya in combination with ravulizumab or eculizumab **AND**
- Medical record documentation of improvement of symptoms of extravascular hemolysis (EVH)*, including but not limited to increased hemoglobin levels, reduction in transfusions, improvement in hemolysis, decreases in LDH, and increased reticulocyte count

If a formulary exception is approved Voydeya will be paid for under the member's prescription drug benefit.

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Xolremdi for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Xolremdi may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of WHIM (warts, hypogammaglobulinemia, infections, and myelokathexis) syndrome **AND**
- Medical record documentation of symptoms and complications associated with WHIM (warts, hypogammaglobulinemia, infections, and myelokathexis) syndrome **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation that Xolremdi is prescribed by an immunologist or hematologist **AND**
- Medical record documentation of member's weight **AND**
- Medical record documentation of baseline absolute neutrophil count (ANC) and absolute lymphocyte count (ALC)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

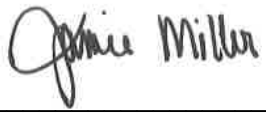
- QL FOR LETTER ONLY: 4 capsules per day, 30 day supply per fill

| Geisinger<br><br>**POLICY AND PROCEDURE MANUAL** | **POLICY NUMBER: 827.0**<br><br>**SECTION: Commercial Drug**<br>**SUBJECT:** Xolremdi |
|---|---|

**AUTHORIZATION DURATION:** Approval will be given for an initial duration of six (6) months or less if the reviewing provider feels it is medically appropriate. After the initial six (6) month approval, subsequent approvals will be for a duration of twelve (12) months or less if the reviewing provider feels it is medically appropriate, requiring medical record documentation of:

- Medical record documentation of sustained improvement in absolute neutrophil count (ANC) and absolute lymphocyte count (ALC) **OR**
- Medical record documentation of clinical rationale for continuation of treatment (e.g. other benefits such as a decrease in infections)

If a formulary exception is approved Xolremdi will be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**SUBJECT:** Arexvy

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Arexvy for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Arexvy may be made for members who meet the following criteria:

- Medical record documentation that the member is 50 to 59 years of age **AND**
- Medical record documentation of a diagnosis of chronic pulmonary disease, chronic cardiovascular disease, diabetes, chronic kidney disease, or chronic liver disease **AND**
- Medical record documentation that the member is at an increased risk of lower respiratory tract disease (LRTD) caused by respiratory syncytial virus (RSV)

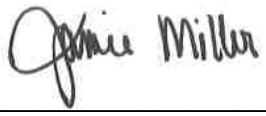
**NOTE:** Authorization is not required for members 60 years of age and older.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 dose per lifetime

If a formulary exception is approved Arexvy will be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Iqirvo for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Iqirvo may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of primary biliary cholangitis (primary biliary cirrhosis) **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Iqirvo is prescribed by a board-certified gastroenterologist, hepatologist, or liver transplant specialist **AND**
- Medical record documentation that Iqirvo is not being used in members with complete biliary obstruction **AND**
- Medical record documentation that Iqirvo is not being used in members with decompensated cirrhosis **AND**
- Medical record documentation that Iqirvo is not being used in combination with Ocaliva **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of contraindication or intolerance to UDCA (ursodiol tablets, Urso Forte, or Reltone) **OR**
    - Medical record documentation of inadequate biochemical response to an appropriate dose of UDCA (ursodiol tablets, Urso Forte, or Reltone) for at least 12 months **AND** that UDCA product will be continued in combination with Iqirvo

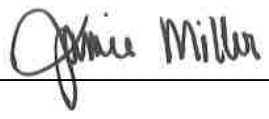
**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 12 months. Subsequent approvals will be for an additional 12 months. The medication will no longer be covered if medial record documentation does not show:

- Medical record documentation of a positive clinical response based on biochemical response (defined as: ALP < 1.67 × ULN OR TB ≤ ULN OR ALP decrease ≥ 15% from baseline) **OR** clinical symptom improvement (ex: reduction of itch, fatigue) **AND**
- Medial record documentation that the patient does NOT have decompensated cirrhosis **OR** a complete biliary obstruction



If a formulary exception is approved Iqirvo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
ursodiol tablets/capsules

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Lazcluze for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**
New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Lazcluze may be made for members who meet the following criteria:

- Medical record documentation that Lazcluze is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years of age **AND**
- Medical record documentation of locally advanced or metastatic non-small cell lung cancer (NSCLC) **AND**
- Medical record documentation of epidermal growth factor receptor (EGFR) exon 19 deletions or exon 21 L858R substitution mutations, as detected by an FDA-approved test **AND**
- Medical record documentation that Lazcluze will be used in combination with amivantamab (Rybrevant) for first-line treatment

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
    - 80 mg tablets: 2 tablets per day, 30 day supply per fill
    - 240 mg tablets: 1 tablet per day, 30 day supply per fill

| Geisinger<br><br>**POLICY AND PROCEDURE MANUAL** | **POLICY NUMBER: 832.0**<br><br>**SECTION: Commercial Drug**<br>**SUBJECT:** Lazcluze |
|---|---|

**AUTHORIZATION DURATION:** Lazcluze is configured as a prior authorization for new starts only. Lazcluze will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved Lazcluze will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Rybrevant*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Ohtuvayre may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of moderate to severe chronic obstructive pulmonary disease (COPD) **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to two formulary long-acting beta-2 agonists (LABAs) used in combination with long-acting muscarinic antagonists (LAMA) and/or inhaled corticosteroids (ICS)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 5 mL (2 ampules) per day

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 12 months and will require medical record documentation of continued disease improvement or lack of disease progression.

If a formulary exception is approved Ohtuvayre will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

  - 9 mg tablets: 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Itovebi is configured as a prior authorization for new starts only. Itovebi will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved Itovebi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Livdelzi for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Livdelzi may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of primary biliary cholangitis (primary biliary cirrhosis) **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Livdelzi is prescribed by a board-certified gastroenterologist, hepatologist, or liver transplant specialist **AND**
- Medical record documentation that Livdelzi is not being used in members with complete biliary obstruction **AND**
- Medical record documentation that Livdelzi is not being used in members with decompensated cirrhosis **AND**
- Medical record documentation that Livdelzi is not being used in combination with Ocaliva or Iqirvo **AND**
- Medical record documentation of contraindication or intolerance to UDCA (ursodiol tablets, Urso Forte, or Reltone) **OR**
- Medical record documentation of inadequate biochemical response to an appropriate dose of UDCA (ursodiol tablets, Urso Forte, or Reltone) for at least 12 months **AND** that UDCA product will be continued in combination with Livdelzi

**NOTES:**

- Inadequate response to UDCA:
    - Alkaline phosphatase (ALP) greater than or equal to 1.67 times the upper limit of normal (ULN) and/or if total bilirubin was between 1 and 2 times the ULN
        - ULN for females: ALP is 118 U/L and bilirubin is 1.1 mg/dL

        - ULN for males: ALP is 124 U/L and bilirubin is 1.5 mg/dL
- Appropriate dose of UDCA:
    - 13 to 15 mg/kg/day in 2 to 4 divided dose

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

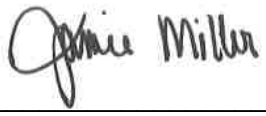
**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 12 months. Subsequent approvals will be for an additional 12 months. The medication will no longer be covered if medial record documentation does not show:

- Medical record documentation of a positive clinical response based on biochemical response (defined as: alkaline phosphatase less than 1.67 × upper limit of normal and alkaline phosphatase decrease greater than or equal to 15% from baseline, and total bilirubin less than or equal to 1.0 x upper limit of normal from baseline) **OR** clinical symptom improvement (ex: reduction of itch, fatigue) **AND**
- Medial record documentation that the patient does NOT have a complete biliary obstruction OR decompensated cirrhosis

If a formulary exception is approved Livdelzi will be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
ursodiol tablets/capsules

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Nemluvio may be made for members who meet the following criteria:

- Medical record documentation that Nemluvio is prescribed by or in consultation with an allergist, immunologist, or dermatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of prurigo nodularis **AND**
- Medical record documentation that the member is receiving an appropriate dose based on member's weight **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Dupixent **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of a failure on a very-high potency topical corticosteroid (for example, clobetasol dipropionate 0.05% ointment) **OR** calcineurin inhibitor (i.e. tacrolimus) if topical corticosteroids are not advisable **OR**
    - Medical record documentation of widespread or recalcitrant disease **AND** contraindication to, intolerance to, or therapeutic failure on an adequate trial of phototherapy (UVA/UVB treatment) **AND** systemic therapy (including methotrexate and/or cyclosporine)

***NOTE:** The recommended dosage for adult patients weighing greater than or equal to 90 kilograms is 60 mg (two 30-mg injections) initially, followed by 60 mg every 4 weeks. The recommended dosage for adult patients weighing less than 90 kg is 60 mg (two 30-mg injections) initially, followed by 30 mg every 4 weeks.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 autoinjectors per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate. The medication will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

- Medical record documentation of continued disease improvement or lack of disease progression **AND**
- Medical record documentation that the member is receiving an appropriate dose based on member's weight

If a formulary exception is approved Nemluvio will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Vafseo may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of anemia due to chronic kidney disease **AND**
- Medical record documentation that member has been receiving dialysis for at least three months **AND**
- Medical record documentation of a Hemoglobin less than or equal to 11 g/dL **AND**
- Medical record documentation of ferritin greater than or equal to 100 ng/mL or transferrin saturation level greater than or equal to 20% or history of chelation therapy for iron

**NOTES:**

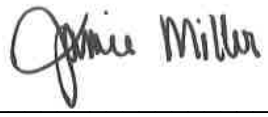
- For continuation of therapy, a repeat Hgb should be submitted after 12 months of therapy.
- In individuals whose Hgb is greater than or equal to 11 g/dL or rises by 1g/dL in any two-week period, additional doses should be withheld.
- For initiation or continuation of therapy, a ferritin level no greater than 3 months old and/ or transferrin saturation level no greater than 6 months old should be submitted.
- The member should receive supplemental iron if serum ferritin is less than 100ng/ml and transferrin saturation is less than 20 percent.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 150 mg tablet: 1 tablet per day, 30 day supply per fill
  - 300 mg tablet: 2 tablets per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Approval of Vafseo will be given for an initial duration of 12 months. Subsequent authorization will be considered based on the stated criteria.



If a formulary exception is approved Vafseo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**SUBJECT:** Yorvipath

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Yorvipath for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Yorvipath may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of hypoparathyroidism **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Yorvipath is being prescribed by an endocrinologist **AND**
- Medical record documentation of no increased baseline risk for osteosarcoma **AND**
- Medical record documentation of serum 25(OH) vitamin D within normal range within 2 weeks prior to the first dose **AND**
- Medical record documentation of albumin-corrected serum calcium greater than or equal to 7.8 mg/dL within 2 weeks prior to the first dose **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of therapeutic failure on, intolerance to, or contraindication to calcitriol **OR**
    - Medical record documentation that member will use Yorvipath in addition to calcitriol and/or elemental calcium

**NOTES:**

- For continuation of therapy, a repeat Hgb should be submitted after 12 months of therapy.
- The safety and effectiveness of Yorvipath was not studied in patients diagnosed with postsurgical acute hypoparathyroidism.
- Increased risks of osteosarcoma:
    - Open epiphyses

  - Metabolic bone diseases other than hypoparathyroidism, including Paget's disease of bone
  - Unexplained elevations of alkaline phosphatase
  - Bone metastases or a history of skeletal malignancies
  - History of external beam or implant radiation therapy involving the skeleton
  - Hereditary disorders predisposing to osteosarcoma
- The normal range for albumin-corrected serum calcium is 8.3 to 10.6 mg/dL.
- The normal range for serum 25(OH) vitamin D is greater than or equal to 20 ng/mL.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 168 mcg/0.5 mL: 1.12 mL per 28 days
  - 294 mcg/0.98 mL: 1.96 mL per 28 days
  - 420 mcg/1.4 mL: 2.8 mL per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 12 months. Subsequent approvals will be for an additional 12 months and will require:

- Medical record documentation of albumin-corrected serum calcium within the lower-half of the normal reference range **AND**
- Medical record documentation of prescriber attestation that member is responding to Yorvipath therapy

If a formulary exception is approved Yorvipath will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
calcitriol

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Gonal-F may be made for members who meet the following criteria:

**For Females:**

- Medical record documentation that Gonal-F is prescribed by or in consultation with a reproductive specialist or infertility specialist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of one of the following:
  - Poor/diminished ovarian reserve **OR**
  - Tubal factor infertility **OR**
  - Gonal-F is being used with donor eggs **OR**
  - In Vitro Fertilization **AND**
- Medical record documentation of therapeutic failure, contraindication, or intolerance to Follistim AQ

**OR**

- Medical record documentation that Gonal-F is prescribed by or in consultation with a reproductive specialist or infertility specialist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that infertility is not due to primary ovarian failure **AND**
- Medical record documentation that Gonal-F is being using concomitantly with an hCG product **AND**
- Medical record documentation of therapeutic failure, contraindication, or intolerance to Follistim AQ **AND**
- For members without a diagnosis of hyperprolactinemic anovulation:
  - Medical record documentation of therapeutic failure, contraindication, or intolerance to clomiphene, letrozole, and/or bromocriptine for a total of 3 cycles **OR**
- For patients with a diagnosis of hyperprolactinemic anovulation, one of the following:

- Uncorrected prolactin levels, greater than 25 ng/mL, after 6 months of therapy on bromocriptine or cabergoline **OR**
- Corrected prolactin levels, less than or equal to 25 ng/mL, on bromocriptine or cabergoline with therapeutic failure, contraindication, or intolerance to 3 cycles of clomiphene and/or letrozole

**For Males:**

- Medical record documentation that Gonal-F is prescribed by or in consultation with a reproductive specialist or infertility specialist **AND**
- Medical record documentation of male factor infertility **AND**
- Medical record documentation of therapeutic failure, contraindication, or intolerance to Follistim AQ

**NOTES:**

- For continuation of therapy, a repeat Hgb should be submitted after 12 months of therapy.
- The safety and effectiveness of Yorvipath was not studied in patients diagnosed with postsurgical acute hypoparathyroidism.
- Increased risks of osteosarcoma:
  - Open epiphyses
  - Metabolic bone diseases other than hypoparathyroidism, including Paget's disease of bone
  - Unexplained elevations of alkaline phosphatase
  - Bone metastases or a history of skeletal malignancies
  - History of external beam or implant radiation therapy involving the skeleton
  - Hereditary disorders predisposing to osteosarcoma
- The normal range for albumin-corrected serum calcium is 8.3 to 10.6 mg/dL.
- The normal range for serum 25(OH) vitamin D is greater than or equal to 20 ng/mL.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

If a formulary exception is approved Gonal-F will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Voquezna tablets may be made for members who meet the following criteria:

**<u>Healing and Maintenance of Erosive Esophagitis</u>**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of erosive esophagitis **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three formulary proton pump inhibitors **AND**
- Medical record documentation that the correct Food and Drug Administration (FDA) approved strength/dosing is being prescribed (20 mg once daily for 8 weeks, followed by 10 mg once daily for up to 6 months)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14 (enter 49275087100320 & 49275087100340)

**QUANTITY LIMIT/AUTHORIZATION DURATION:** *Two authorizations must be entered. Enter Both GPI 49275087100320 (Voquezna 10 mg) and 49275087100340 (Voquezna 20 mg.*

- Voquezna 20 mg tablet
    1. Add GPI 49275087100340, treat as “include” process modifier, ignore misc handler, max script days 28, max quantity dispensed 28, number of claims authorized 2, with a duration of 56 days.
- Voquezna 10 mg tablet
    1. Add GPI 49275087100320, treat as “include” process modifier, ignore misc handler, max script days 30, max quantity dispensed 30, number of claims authorized 6, with a duration of 8 months.

- QL FOR LETTER: Voquezna 10 mg tablets: 1 tablet per day, 30 day supply per fill, maximum of 6 fills. Voquezna 20 mg tablets: 1 tablet per day, 28 day supply per fill, maximum of 2 fills.

**Heartburn associated with Non-Erosive Gastroesophageal Reflux Disease**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of non-erosive gastroesophageal reflux disease **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three formulary proton pump inhibitors **AND**
- Medical record documentation that the correct Food and Drug Administration (FDA) approved strength/dosing is being prescribed (10 mg once daily for 4 weeks)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14 (enter 49275087100320)

**QUANTITY LIMIT/AUTHORIZATION DURATION:** *QLs must be entered within the authorization.*

- Voquezna 10 mg tablet
    1. Add GPI 49275087100320, treat as "include" process modifier, ignore misc handler, max daily dose 1, max script days 28, max quantity dispensed 28, number of claims authorized 1, with a duration of 28 days.
- QL FOR LETTER: Voquezna 10 mg tablets: 1 tablet per day, 28 day supply per fill, maximum of 1 fill.

**H. pylori Infection**

- Medical record documentation of a diagnosis of *Helicobacter pylori (H. pylori)* infection **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to two prior therapies for *Helicobacter pylori (H. pylori)* infection **AND**
- Medical record documentation that the correct Food and Drug Administration (FDA) approved strength/dosing is being prescribed (20 mg twice daily for 14 days)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14 (enter 49275087100340)

**QUANTITY LIMIT/AUTHORIZATION DURATION:** *QLs must be entered within the authorization.*

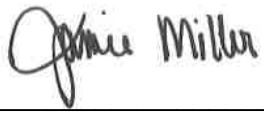
- Voquezna 10 mg tablet
    1. Add GPI 49275087100340, treat as "include" process modifier, ignore misc handler, max daily dose 2, max script days 14, max quantity dispensed 28, number of claims authorized 1, with a duration of 14 days.

- QL FOR LETTER: Voquezna 20 mg tablets: 2 tablets per day, 14 day supply per fill, maximum of 1 fill.

**AUTHORIZATION DURATION:** 14 days, RX count 1

If an exception is made, Voquezna tablets will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

*H. pylori*: amoxicillin, clarithromycin, levofloxacin, metronidazole, rifabutin, tetracycline, esomeprazole, lansoprazole, omeprazole, pantoprazole, rabeprazole

Erosive Esophagitis/Non-Erosive GERD: esomeprazole, lansoprazole, omeprazole, pantoprazole, rabeprazole

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Aqneursa for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Aqneursa may be made for members who meet the following criteria:

- Medical record documentation of weight greater than or equal to 15 kilograms and dose is weight appropriate **AND**
- Medical record documentation that Aqneursa is prescribed by or in collaboration with a physician who specializes in the treatment of Niemann-Pick disease type C (NPC) or related disorders **AND**
- Medical record documentation of a diagnosis of Niemann-Pick disease type 1C (NPC1) or Niemann-Pick disease type 2C (NPC2), confirmed by genetic testing demonstrating one of the following:
    - Mutations in both alleles of Niemann-Pick type 1C gene (NPC1) or Niemann-Pick type 2C gene (NPC2) **OR**
    - Mutation in one allele **AND** either a positive filipin-staining or elevated cholestane triol/oxysterols (greater than two times upper limit of normal) **AND**
- Medical record documentation of at least one neurological sign of Niemann-Pick disease type C (NPC) (for example, loss of fine motor skills, swallowing, speech, ambulation) **AND**
- Medical record documentation that member has completed the Niemann-Pick type C Clinical Severity Scale (NPCCSS) assessment to determine baseline score of disease severity (note: higher score indicates greater impairment) **AND**
- Medical record documentation that member is NOT using Aqneursa in combination with Miplyffa

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT/AUTHORIZATION DURATION:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

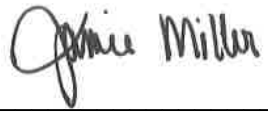
- QL FOR LETTER ONLY: 4 packets per day, 28 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for twelve (12) months. Subsequent approvals will be given for a duration of twelve (12) months. For continuation of coverage, the following criteria must be met:

- Medical record documentation of clinical improvement or lack of progression in neurological signs of Niemann-Pick disease type C (NPC) (for example stabilization or improvement of Niemann-Pick type C Clinical Severity Scale (NPCCSS) score, fine motor skills, swallowing, speech, and/or ambulation) **AND**
- Medical record documentation that Aqneursa continues to be prescribed by or in collaboration with a physician who specializes in the treatment of Niemann-Pick disease type C (NPC) or related disorders **AND**
- Medical record documentation that member is NOT using Aqneursa in combination with Miplyffa

If an exception is made, Aqneursa will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Ebglyss may be made for members who meet the following criteria:

- Medical record documentation that Ebglyss is prescribed by or in consultation with an allergist, dermatologist, or immunologist **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of a diagnosis of moderate to severe atopic dermatitis **AND**
- Medical record documentation that the member’s weight is greater than 40 kilograms **AND**
- Medical record documentation of contraindication to, intolerance to, or therapeutic failure to one systemic therapy (e.g., phototherapy, immunotherapy, or other systemic agents) **AND**
- Medical record documentation of one of the following:
    - Therapeutic failure* on an adequate trial of at least one medium (or higher) potency topical corticosteroid **OR**
    - For members with an intolerance or contraindication to topical corticosteroids or for members in whom topical corticosteroids are inadvisable (use on sensitive areas, age between 2 and 15 years): Therapeutic failure on, intolerance to, or contraindication to a topical calcineurin inhibitor **AND**

***NOTES:** Therapeutic failure is defined as an inability to achieve and maintain remission of low to mild disease activity.

**AUTHORIZATION DURATION**: Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate. The medication will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

- Medical record documentation of continued disease improvement or lack of disease progression **AND**
- Medical record documentation that the member's weight is greater than 40 kilograms

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT**

- **Initial Approval**
  - Induction dosing of 500 mg at week 0 and week 2, followed by 250 mg every 2 weeks until week 16 or later. Maintenance dosing of 250 mg every 4 weeks.
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, enter 1 in max number of claims authorized, max quantity dispensed 4, maximum day supply 28 with a duration of two-weeks.
    2. In NCRx: Add Treat as "Include" Process Modifier, Ignore Misc Handler, enter 3 in max number of claims authorized, max quantity dispensed 2, maximum day supply 28 with a duration of 12 weeks.
    3. In NCRx: Add Treat as "Include" Process Modifier with a start date 1 day after the 2/28 loading dose ends for the remainder of the authorization.
       - QL FOR LETTER: Loading dose: 4 mL per 28 days for 1 fill following by 2 mL per 28 days for 3 fills, Maintenance dose: 1 mL per 28 days
- **Renewal –**
  - 250 mg every 4 weeks
    1. In PA Hub: Add Treat as "Include" Process Modifier, quantity limit does not need to be entered into the authorization.
       - QL FOR LETTER: 1 mL per 28 days

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Imkeldi for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Imkeldi may be made for members who meet the following criteria:

- Medical record documentation that Imkeldi is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of newly diagnosed Philadelphia chromosome positive chronic myeloid leukemia (PH+ CML) in chronic phase **OR**
    - Medical record documentation of Philadelphia chromosome positive chronic myeloid leukemia (Ph+ CML) in blast crisis (BC), accelerated phase (AP), or in chronic phase (CP) AND documentation of failure of interferon-alpha therapy **OR**
    - Medical record documentation of relapsed or refractory Philadelphia chromosome positive acute lymphoblastic leukemia (Ph+ ALL) **OR**
    - Medical record documentation of newly diagnosed Philadelphia chromosome positive acute lymphoblastic leukemia (Ph+ ALL) **AND** documentation that Imkeldi will be used in combination with chemotherapy **OR**
    - Medical record documentation of myelodysplastic/myeloproliferative diseases (MDS/MPD) associated with platelet-derived growth factor receptor (PDGFR) gene re-arrangements **OR**
    - Medical record documentation of aggressive systemic mastocytosis (ASM)

without the D816V c-Kit mutation or with c-Kit mutational status unknown **OR**
    - Medical record documentation of hypereosinophilic syndrome (HES) and/or chronic eosinophilic leukemia (CEL) AND documentation of FIP1L1-PDGFRα fusion kinase (mutational analysis or fluorescence in situ hybridization [FISH] demonstration of CHIC2 allele deletion) or documentation of FIP1L1-PDGFRα fusion kinase negative or unknown **OR**
    - Medical record documentation of unresectable, recurrent and/or metastatic dermatofibrosarcoma protuberans (DFSP) **OR**
    - Medical record documentation of Kit (CD117) positive unresectable and/or metastatic malignant gastrointestinal stromal tumors (GIST) **OR**
    - Medical record documentation of adjuvant treatment following resection of Kit (CD117) positive GIST **AND**
- Medical record documentation of inability to tolerate or swallow imatinib tablet formulation

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for one month duration

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

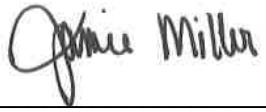
- QL FOR LETTER ONLY: 10 mL per day, 28 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Imkeldi is configured as a prior authorization for new starts only. Imkeldi will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved Imkeldi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

imatinib tablets

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Emrosi for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Emrosi may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of rosacea with inflammatory lesions (papules and pustules) **AND**
- Medical record documentation of contraindications to, intolerance to, or therapeutic failure on 3 (three) generic formulary alternatives, one of which must be an oral tetracycline derivative

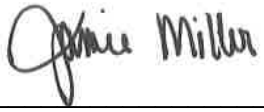
**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 capsule per day

If a formulary exception is approved Emrosi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



| Geisinger<br><br>**POLICY AND PROCEDURE MANUAL** | **POLICY NUMBER: 857.0**<br><br>**SECTION: Commercial Drug**<br>**SUBJECT:** Emrosi |
|---|---|

**FORMULARY ALTERNATIVES:**

**Oral tetracycline derivatives:** doxycycline monohydrate (capsules), doxycycline hyclate (capsules), minocycline (capsules), and tetracycline (capsules)
**Topical alternatives:** metronidazole 0.75% cream/gel, ivermectin 1% cream, azelaic acid 15% gel

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Gomekli may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 2 years **AND**
- Medical record documentation that Gomekli is prescribed by an oncologist, neurologist, or geneticist **AND**
- Medical record documentation of neurofibromatosis type 1 as defined by:
- Medical record documentation of one of the following:
    a) At least two (2) of the following from section (c), diagnostic criteria points (i) through (vii) if the individual does **NOT** have a parent with neurofibromatosis type 1 (NF1) **OR**
    b) At least one (1) of the following from section (c), diagnostic criteria points (i) through (vii) if the individual **DOES** have a parent with neurofibromatosis type 1 (NF1)
    c) Diagnostic Criteria Points:
        i. Six (6) or more café-au-lait macules > 5 mm in diameter in prepuberal and > 15 mm in diameter in postpuberal individuals (longest diameter measure for each lesion)
        ii. Two (2) or more neurofibromas OR one (1) plexiform neurofibroma (PN)
        iii. Freckling in the axillary or inguinal region

iv. Optic pathway glioma
v. Two (2) or more Lisch nodules (iris hamartomas) or two (2) or more choroidal abnormalities
vi. A distinctive bony lesion (example: sphenoid dysplasia), anterolateral bowing of the tibia, or long bone pseudoarthritis
vii. A heterozygous pathogenic NF1 variant with variant allele fraction of 50% in apparently normal tissue **AND**

- Medical record documentation that the individual has symptomatic plexiform neurofibromas (PN) not amenable to complete resection*

***NOTE:** In clinical trials, inoperable plexiform neurofibromas (PN) were defined as a PN that cannot be completely surgically removed without risk for substantial morbidity due to encasement of or close proximity to vital structures, invasiveness, or high vascularity of the PN.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 1 mg capsule and 1 mg soluble tablet: 168 capsules/tablets per 28 days
  - 2 mg capsule: 84 capsules per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 6 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of continued disease improvement or lack of disease progression. The medication will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

If a formulary exception is approved Gomekli will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Yesintek may be made for members who meet the following criteria:

**Psoriasis**

- Medical record documentation that Yesintek is prescribed by a dermatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of moderate to severe plaque psoriasis characterized by greater than or equal to 3% of body surface area involved or disease affecting crucial body areas such as hands, feet, face or genitals **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to one topical corticosteroid **OR** one systemic therapy **OR** phototherapy **AND**
- Medical record documentation that the prescribed dosing is appropriate for patient's weight **AND**
- Medical record documentation that Yesintek is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**NOTE:**

- Patients weighing over 100 kg should receive 90 mg every 12 weeks
- Patients weighing less than 100 kg should receive 45 mg every 12 weeks

**RE-AUTHORIZATION CRITERIA:** Yesintek is configured as a prior authorization for new starts only. Yesintek will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 105 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**QUANTITY LIMIT –** *Two authorizations must be entered.*

- Yesintek 45 mg syringe (less than 100 kg)
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, DS, max quantity dispensed 0.5, max script days 28, number of claims authorized 1, with a duration of 3 weeks.
        - QL FOR LETTER: Loading dose: 0.5 mL per 28 days; Maintenance dose: 0.5 mL per 84 days
- Yesintek 90 mg syringe (greater than or equal to 100 kg)
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, DS, max quantity dispensed 1, max script days 28, number of claims authorized 1, with a duration of 3 weeks.
        - QL FOR LETTER: Loading dose: 1 mL per 28 days; Maintenance dose: 1 mL per 84 days

**FORMULARY ALTERNATIVES:**

cyclosporine, methotrexate

**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)

**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)

**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene);

betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)
**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam (Temovate/Clobex/Olux); diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E); fluocinonide 0.1% cream (Vanos); halobetasol 0.05% cream and ointment (Ultravate)

**Pediatric Plaque Psoriasis**

- Medical record documentation that Yesintek is prescribed by a dermatologist **AND**
- Medical record documentation of age greater than or equal to 6 years **AND**
- Medical record documentation of a diagnosis of moderate to severe plaque psoriasis characterized by greater than or equal to 3% of body surface area involved or disease affecting crucial body areas such as hands, feet, face or genitals **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least two topical corticosteroids **AND**
- Medical record documentation that the prescribed dosing is appropriate for patient's weight **AND**
- Medical record documentation that Yesintek is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**RE-AUTHORIZATION CRITERIA:** Yesintek is configured as a prior authorization for new starts only. Yesintek will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 105 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**NOTE:**

- Patients weighing over 100 kg should receive 90 mg every 12 weeks
- Patients weighing ≥ 60 kg to < 100 kg should receive 45 mg every 12 weeks
- Patients weighing less than 60 kg should receive 0.75 mg/kg every 12 weeks

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**QUANTITY LIMIT –** *Two authorizations must be entered.*

- Yesintek 45 mg vial (less than 60 kg)
    1. In PA Hub: Add Treat as "Include" Process Modifier, max script days 28, max quantity dispensed 1, and number of claims authorized 1, with a duration of 3 weeks.
        - QL FOR LETTER: Loading dose: 1 vial per 28 days; Maintenance dose: 1 vial per 84 days
- Yesintek 45 mg syringe (less than 100 kg)
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, max script days 28, number of claims authorized 1, with a duration of 3 weeks.
        - QL FOR LETTER: Loading dose: 0.5 mL per 28 days; Maintenance dose: 0.5 mL per 84 days
- Yesintek 90 mg syringe (greater than or equal to 100 kg)

1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, max script days 28, number of claims authorized 1, with a duration of 3 weeks.
    - QL FOR LETTER: Loading dose: 1 mL per 28 days; Maintenance dose: 1 mL per 84 days

**FORMULARY ALTERNATIVES:**

**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)

**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)

**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

**Psoriatic Arthritis**

- Medical record documentation that Yesintek is prescribed by a rheumatologist or dermatologist **AND**
- Medical record documentation of age greater than or equal to 6 years **AND**
- Medical record documentation of a diagnosis of moderately to severely active psoriatic arthritis which must include documentation of either active psoriatic lesions or a documented history of psoriasis **AND**
- Medical record documentation of an intolerance to, contraindication to, or therapeutic failure on one conventional/non-biologic agent **AND**
- Medical record documentation that the patient is going to receive a dose of 45 mg every 12 weeks **OR** medical record documentation that the patients has a co-existing diagnosis of moderate-to-severe plaque psoriasis and weight greater than 100 kg **OR** member is under the age of 18 years and is receiving the recommended weight based dose **AND**
- Medical record documentation that Yesintek is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**RE-AUTHORIZATION CRITERIA:** Yesintek is configured as a prior authorization for new starts only. Yesintek will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 105 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**NOTES:**

- FDA approved dose for adult psoriatic arthritis is 45 mg every 12 weeks.
- For patients with co-existent moderate-to-severe plaque psoriasis weighing greater than 100 kg, the recommended dose is 90 mg every 12 weeks.
- Pediatric dosing:

| Body Weight at Time of Dosing | Recommended Dose |
|---|---|
| Less than 60 kg | 0.75 mg/kg |
| 60kg or more | 45mg |
| Greater than 100kg with co-existent moderate-to-severe plaque psoriasis | 90mg |

- Pediatric PsA is a category of juvenile idiopathic arthritis (JIA).

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**QUANTITY LIMIT –** *Two authorizations must be entered.*

- Yesintek 45 mg syringe (less than 100 kg)
    1. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, max script days 28, number of claims authorized 1, with a duration of 3 weeks.
        - QL FOR LETTER: Loading dose: 0.5 mL per 28 days; Maintenance dose: 0.5 mL per 84 days
- Yesintek 90 mg syringe (greater than or equal to 100 kg)
    1. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, max script days 28, number of claims authorized 1, with a duration of 3 weeks.
        - QL FOR LETTER: Loading dose: 1 mL per 28 days; Maintenance dose: 1 mL per 84 days

**FORMULARY ALTERNATIVES:**

methotrexate, celecoxib, choline magnesium salicylate, diclofenac, diclofenac extended release, diflunisal, etodolac, etodolac extended release, fenoprofen, flurbiprofen, ibuprofen, indomethacin, indomethacin sustained release, ketoprofen, ketorolac, meclofenamate, meloxicam, nabumetone, naproxen, naproxen sodium, naproxen EC, oxaprozin, piroxicam, salsalate, sulindac, tolmetin

**Crohn's Disease**

- Medical record documentation that Yesintek is prescribed by a gastroenterologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of moderately to severely active Crohn's disease **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of therapeutic failure on, intolerance to, or contraindication to corticosteroids **AND** immunomodulators (e.g. azathioprine and 6-mercaptopurine) **OR** medical record documentation of a therapeutic failure on or intolerance to prior biologic therapy **OR**
    - Medical record documentation of moderate/high risk patient as defined by age at initial diagnosis less than 30 years, extensive anatomic involvement, perianal and/or severe rectal disease, deep ulcers, prior surgical resection, and structuring and/or penetrating behavior **AND**
- Medical record documentation of Yesintek 130 mg vials as IV infusion (for induction therapy) **OR** Yesintek 90 mg syringes (for maintenance therapy) being prescribed **AND**
- Medical record documentation that Yesintek is <u>not</u> being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**RE-AUTHORIZATION CRITERIA:** Yesintek is configured as a prior authorization for new starts only. Yesintek will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 105 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**QUANTITY LIMIT:**

- **Initial Approval –** *Two authorizations must be entered.*
    1. In PA Hub: Add Treat as "Include" Process Modifier, number of claims authorized 1, enter for 1 month duration
    2. In NCRX Next: Add max script days 56 with an end date of 12/31/2099
        - QL FOR LETTER: 1 mL per 56 days

**NOTE:** Yesintek 45 mg syringe is <u>not</u> indicated for use in Crohn's disease.

**NOTE:** If the initial infusion will be billed through the pharmacy benefit (i.e., specialty pharmacy trying to process the 130 mg/26 mL intravenous solution), in NCRx Next enter

treat as include process modifier, ignore misc handler, GPI 52504070792020, enter 1 in the max number of claims authorized, max quantity 104, day supply 56) with a duration of 1 month. This will be in addition to the authorization above. Also, you will need to update the QL for the letter to the following:

- QL FOR LETTER: Intravenous loading dose: 104 mL per 56 days; 90 mg Syringe maintenance dose: 1 mL per 56 days

**FORMULARY ALTERNATIVES:**

Corticosteroids: prednisone, budesonide
Immunomodulators: azathioprine, 6-mercaptopurine

**Ulcerative Colitis**

- Medical record documentation that Yesintek is prescribed by a gastroenterologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of moderately to severely active ulcerative colitis **AND**
- Medical record documentation of therapeutic failure on, intolerance to, at least one conventional therapy: corticosteroids, aminosalicylates, or immunomodulators (azathioprine or 6-mercaptopurine (6-MP) **AND**
- Medical record documentation of Yesintek 130 mg vials as IV infusion (for induction therapy) **OR** Yesintek 90 mg syringes (for maintenance therapy) being prescribed **AND**
- Medical record documentation that Yesintek is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**RE-AUTHORIZATION CRITERIA:** Yesintek is configured as a prior authorization for new starts only. Yesintek will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 105 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

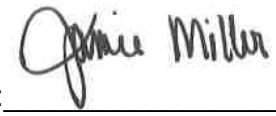
**QUANTITY LIMIT:**

- **Initial Approval –** *Two authorizations must be entered.*
    1. In PA Hub: Add Treat as "Include" Process Modifier, number of claims authorized 1, enter for 1 month duration
    2. In NCRX Next: Add max script days 56 with an end date of 12/31/2099
        - QL FOR LETTER: 1 mL per 56 days

**NOTE:** Yesintek 45 mg syringe is not indicated for use in ulcerative colitis.

**NOTE:** If the initial infusion will be billed through the pharmacy benefit (i.e., specialty pharmacy trying to process the 130 mg/26 mL intravenous solution), in NCRx Next enter treat as include process modifier, ignore misc handler, GPI 52504070792020, enter 1 in the max number of claims authorized, max quantity 104, day supply 56) with a duration of 1 month. This will be in addition to the authorization above. Also, you will need to update the QL for the letter to the following:

- QL FOR LETTER: Intravenous loading dose: 104 mL per 56 days; 90 mg Syringe maintenance dose: 1 mL per 56 days



**FORMULARY ALTERNATIVES:**
azathioprine, 6-mercaptopurine

If an exception is made, Yesintek will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Zymfentra for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Zymfentra may be made for members who meet the following criteria:

- Medical record documentation that Zymfentra is prescribed by a gastroenterologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of moderate to severe Crohn's disease **OR** moderate to severe ulcerative colitis **AND**
- Medical record documentation that Zymfentra is <u>not</u> being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent **AND**
- Medical record documentation that member will be using Zymfentra for maintenance dosing following an intravenous induction regimen with an infliximab product

**NOTE:** Zymfentra is only indicated for the maintenance treatment of adults with moderately to severely active ulcerative colitis (UC) and Crohn's disease (CD) following treatment with an infliximab product administered intravenously. Zymfentra requires prior approval of an intravenous infliximab product for induction of remission.

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for DPP4/GLP-1 and GLP-1/GLP-1 therapeutic duplication for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

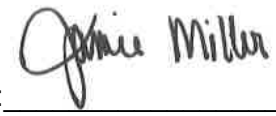
An exception for coverage of DPP4/GLP-1 and GLP-1/GLP-1 therapeutic duplication may be made for members who meet the following criteria:

- Medical record documentation that the member is being transitioned to or from another drug containing a GLP-1 receptor agonist or DPP-4 inhibitor with the intent of discontinuing one of the drugs **OR**
- Medical record documentation of a reason for concomitant use of the requested drugs that is supported by peer-reviewed medical literature or national treatment guidelines

**AUTHORIZATION DURATION:**

- For duplicate GLP therapy: 1 month duration, max scripts = 1
- For GLP-1/DPP4 Concomitant use: Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 6 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of:
    - Medical record documentation of improvement in the signs and symptoms of diabetes while on concomitant GLP-1/DPP4 therapy **AND**
    - Medical record documentation that the member is not experiencing any significant adverse events related to concomitant GLP-1/DPP4 therapy **AND**
    - Medical record documentation of a reason for concomitant use of the requested drugs that is supported by peer-reviewed medical literature or national treatment guidelines

If an exception is made, the duplicate DPP4/GLP-1 or GLP-1/GLP-1 will be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY AND PROCEDURE MANUAL**

**POLICY NUMBER: 865.0**

**SECTION: Commercial Drug**
**SUBJECT:** Avmapki Fakzynja Co-Pack

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Avmapki Fakzynja Co-Pack for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Avmapki Fakzynja Co-Pack may be made for members who meet the following criteria:

- Medical record documentation that Avmapki Fakzynja Co-Pack is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of recurrent low-grade serous ovarian cancer (LGSOC) **AND**
- Medical record documentation of a KRAS-mutation **AND**
- Medical record documentation that member has received at least one prior systemic therapy

**RE-AUTHORIZATION CRITERIA:** Avmapki Fakzynja Co-Pack is configured as a prior authorization for new starts only. Avmapki Fakzynja Co-Pack will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, enter for 1 month duration

**QUANTITY LIMIT –** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 66 tablets per 28 days, 28 day supply per fill

If an exception is made, Avmapki Fakzynja Co-Pack will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Hemiclor may be made for members who meet the following criteria:

- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to 3 thiazide and/or thiazide-like diuretic formulary alternatives, one of which must be generic chlorthalidone

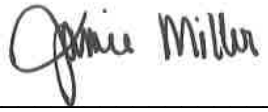
**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 8 tablets per day

If a formulary exception is approved Hemiclor will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.



**FORMULARY ALTERNATIVES:**

chlorthalidone, diuril, hydrochlorothiazide, indapamide, metolazone

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Ibtrozi for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Ibtrozi may be made for members who meet the following criteria:

- Medical record documentation that Ibtrozi is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of locally advanced or metastatic non-small cell lung cancer **AND**
- Medical record documentation of ROS1 rearrangement

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for one month duration

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 3 capsules per day, 30 day supply per fill

| Geisinger<br><br>**POLICY AND PROCEDURE MANUAL** | **POLICY NUMBER: 871.0**<br><br>**SECTION: Commercial Drug**<br>**SUBJECT:** Ibtrozi |
|---|---|

**RE-AUTHORIZATION CRITERIA:** Ibtrozi is configured as a prior authorization for new starts only. Ibtrozi will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved Ibtrozi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Vykat XR may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 4 years **AND**
- Medical record documentation of a diagnosis of hyperphagia in Prader Willi Syndrome **AND**
- Medical record documentation of diagnosis of Prader Willi Syndrome confirmed by genetic testing (such as DNA methylation analysis to detect deletion of the chromosome 15q11-q13 region, uniparental disomy in chromosome 15, or imprinting, translocation, or inversion mutations involving chromosome 15) **AND**
- Medical record documentation that VYKAT XR is being prescribed by or in collaboration with a neurologist, psychiatrist, endocrinologist, or physician with expertise in the treatment of PWS **AND**
- Medical record documentation that the patient and/or caregiver have been counseled on appropriate non-pharmacologic strategies, including dietary restriction, exercise, and behavioral modification **AND**
- Medical record documentation of HbA1c or glucose monitoring at baseline **AND**
- Medical record documentation that patient’s dose will be titrated appropriately based on patient’s weight **OR** that maintenance dose is appropriate based on patient’s weight

**Vykat XR Dosing Chart**

| Weight (kg) | Starting Dosage | Titration Dosage | Titration Dosage | Target Maintenance Dosage |
|---|---|---|---|---|
| | Weeks 1 and 2 | Weeks 3 and 4 | Weeks 5 and 6 | |
| 20 to <30 kg | 25 mg | 50 mg | 75 mg | 100 mg |
| 30 to <40 kg | 75 mg | 150 mg | 150 mg | 150 mg |
| 40 to <65 kg | 75 mg | 150 mg | 225 mg | 225 mg |
| 65 to <100 kg | 150 mg | 225 mg | 300 mg | 375 mg |
| 100 to <135 kg | 150 mg | 300 mg | 375 mg | 450 mg |
| ≥135 kg | 150 mg | 300 mg | 450 mg | 525 mg |

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 3 tablets per day, 28 day supply per fill

**AUTHORIZATION DURATION:** Authorization will be given for a period of 12 months. Requests for renewal will require:

- Medical record documentation of improvement of patient's hyperphagia symptoms (for example, but not limited to, decrease in food-seeking behaviors; decrease/maintenance in patient weight; etc.) **AND**
- Medical record documentation of appropriate dosing based on patient's weight **AND**
- Medical record documentation of HbA1c and/or glucose monitoring within the last 6 months

If a formulary exception is approved Vykat XR will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY AND PROCEDURE MANUAL**

**POLICY NUMBER: 876.0**

**SECTION: Commercial Drug**
**SUBJECT:** Arbli

**876Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Arbli for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Arbli may be made for members who meet the following criteria:

- Medical record documentation of use for ONE of the following:
    - Hypertension **OR**
    - Stroke prophylaxis in patients with hypertension and left ventricular hypertrophy **OR**
    - Patients with diabetic nephropathy and a history of hypertension **AND**
- Medical record documentation of age greater than or equal to 6 years **AND**
- Medical record documentation of difficulty swallowing tablets **OR**
- Medical record documentation of contraindication to, intolerance to, or therapeutic failure to 3 alternative formulary angiotensin receptor blockers, one of which must be losartan tablets

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 10 mL per day

If a formulary exception is approved Arbli will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Crenessity may be made for members who meet the following criteria:

- Medical record documentation of a confirmed diagnosis of classic congenital adrenal hyperplasia (CAH) due to 21-hydroxylase deficiency (21-OHD) **AND**
- Medical record documentation of age greater than or equal to 4 years **AND**
- Medical record documentation that Crenessity is prescribed by or in consultation with an endocrinologist or specialist experienced in congenital adrenal hyperplasia (CAH) **AND**
- Medical record documentation that Crenessity will be used as an adjunctive treatment to glucocorticoid replacement (e.g., dexamethasone, hydrocortisone, methylprednisolone, prednisone, prednisolone) **AND**
- Medical record documentation that member has been receiving a stable regimen of glucocorticoid treatment for at least 4 weeks **AND**
- Medical record documentation of one of the following:
    - Documentation that member requires a supraphysiologic glucocorticoid dose to control their disease **OR**
    - Documentation that androgen levels remain uncontrolled despite maximum tolerated glucocorticoid dosing **AND**
- Medical record documentation that member has NOT had a history of bilateral adrenalectomy, hypopituitarism, or other condition requiring chronic glucocorticoid therapy **AND**
- Medical record documentation of appropriate weight-based dosing **AND**

- **If the request is for oral solution in patients weighing greater than or equal to 55 kilograms OR in patients with a CYP3A4 dose adjustment weighing greater than or equal to 20 kilograms**: Medical record documentation that member is unable to swallow capsules or reason why capsule formulation couldn't be used

**Table 1. Recommended CRENESSITY Weight-Based Dosage for Pediatric Patients 4 Years of Age and Older**

| Weight | Dosage Regimen with a Meal |
|---|---|
| 10 kg to less than 20 kg | 25 mg orally twice daily |
| 20 kg to less than 55 kg | 50 mg orally twice daily |
| Greater than or equal to 55 kg | 100 mg orally twice daily |

**NOTE:** In the CAHtalyst trials, supraphysiologic GC dose was defined as ≥ 12 mg/m²/day hydrocortisone equivalent in pediatrics or ≥ 13 mg/m²/day in adults.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Approval will be given for an initial duration of **6 months**, requiring:

- Medical record documentation that a reduction in daily glucocorticoid dose was able to be achieved **AND**
- Medical record documentation that Crenessity will continue to be used as an adjunctive treatment to glucocorticoid replacement **AND**
- Medical record documentation of appropriate weight-based dosing **AND**
- **If the request is for oral solution in patients weighing greater than or equal to 55 kilograms OR in patients with a CYP3A4 dose adjustment weighing greater than or equal to 20 kilograms**: Medical record documentation that member is unable to swallow capsules or reason why capsule formulation couldn't be used

Subsequent approvals will be for a duration of **12 months**, requiring:

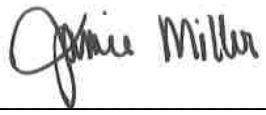
- Medical record documentation that a reduction in daily glucocorticoid dose was able to be maintained **AND**
- Medical record documentation that Crenessity will continue to be used as an adjunctive treatment to glucocorticoid replacement **AND**
- Medical record documentation of appropriate weight-based dosing **AND**
- **If the request is for oral solution in patients weighing greater than or equal to 55 kilograms OR in patients with a CYP3A4 dose adjustment weighing greater than or equal to 20 kilograms**: Medical record documentation that

member is unable to swallow capsules or reason why capsule formulation couldn't be used

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - Capsules: 2 capsule per days, 30 day supply per fill
  - Solution: 4 mL per day, 30 day supply per fill

If a formulary exception is approved Crenessity be paid for under the member's prescription drug benefit.



Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

dexamethasone, hydrocortisone, methylprednisolone, prednisone, prednisolone

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**SECTION: Commercial Drug**
**SUBJECT:** Hernexeos

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Hernexeos for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Hernexeos may be made for members who meet the following criteria:

- Medical record documentation that Hernexeos is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of unresectable or metastatic non-squamous non-small cell lung cancer (NSCLC) **AND**
- Medical record documentation of *HER2* (ERBB2) tyrosine kinase domain activating mutations, as detected by a Food and Drug Administration (FDA)-approved test* **AND**
- Medical record documentation that the member received prior systemic therapy

***NOTE:** The FDA also approved Thermo Fisher Scientific's Oncomine Dx Target Test as a companion diagnostic device to help identify patients who may be eligible for treatment with Hernexeos.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

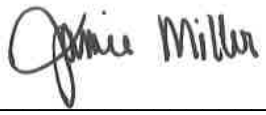
**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 3 tablets per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Hernexeos is configured as a prior authorization for new starts only. Hernexeos will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**



none

If a formulary exception is approved Hernexeos will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**
New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

**For treatment of severe alopecia areata**
An exception for coverage of Leqselvi may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of severe alopecia areata, defined as at least 50% scalp hair loss as measured by the Severity of Alopecia Tool (SALT) **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to one of the following:
    - Systemic therapy used for at least 3 months (for example, corticosteroids, methotrexate, cyclosporine) **OR**
    - Prescription topical corticosteroids used for at least 28 days **OR**
    - Intralesional corticosteroids used for at least 3 months **AND**
- Medical record documentation that member does not have hair loss due to androgenetic alopecia (includes male and female pattern hair loss), chemotherapy-induced hair loss, or other causes of hair loss other than alopecia areata **AND**
- Medical record documentation that Leqselvi is not prescribed in combination with other Janus kinase inhibitors, biologic immunomodulators, cyclosporine, or other potent immunosuppressants **AND**
- Medical record documentation that patient is NOT a CYP2C9 poor metabolizer as assessed by an approved test

**NOTE:** Medical record documentation that patient is not currently prescribed drugs that are moderate or strong CYP2C9 inhibitors.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

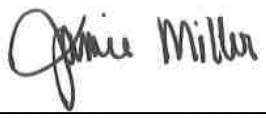
**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 tablets per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial authorization will be for 12 months. Subsequent approvals will be for an additional 12 months and will require medical record documentation of clinical improvement or lack of progression in the signs and symptoms of alopecia areata while on Leqselvi therapy.

**FORMULARY ALTERNATIVES:**

prednisone, methylprednisolone, dexamethasone, prednisolone
**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)
**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)
**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)
**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam (Temovate/Clobex/Olux); diflorasone diacetate 0.05% ointment



(ApexiCon/Psorcon E); fluocinonide 0.1% cream (Vanos); halobetasol 0.05% cream and ointment (Ultravate)

If an exception is made, Leqselvi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Modeyso for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Modeyso may be made for members who meet the following criteria:

- Medical record documentation that Hernexeos is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of unresectable or metastatic non-squamous non-small cell lung cancer (NSCLC) **AND**
- Medical record documentation of *HER2* (ERBB2) tyrosine kinase domain activating mutations, as detected by a Food and Drug Administration (FDA)-approved test* **AND**
- Medical record documentation that the member received prior systemic therapy
- Medical record documentation of age greater than or equal to 1 year of age **AND**
- Medical record documentation of a diagnosis of diffuse midline glioma harboring an H3 K27M mutation **AND**
- Medical record documentation of progressive disease following at least one (1) prior therapy **AND**
- Medical record documentation that member is receiving the appropriate dose based on weight according to the Food and Drug Administration (FDA) approved package labeling

**NOTE:** The recommended dosage of Modeyso is 625 mg orally once weekly for adults and weight based dosing for pediatric patients aged 1 to 17 years who weigh at least 10 kg. A recommended dosage of Modeyso has not been established in pediatric patients weighing less than 10 kg.

| Body Weight (kg) | Recommended Dosage |
|---|---|
| 10 kg to <12.5 kg | 125 mg Once Weekly |
| 12.5 kg to <27.5 kg | 250 mg Once Weekly |
| 27.5 kg to <42.5 kg | 375 mg Once Weekly |
| 42.5 kg to <52.5 kg | 500 mg Once Weekly |
| ≥52.5 kg | 625 mg Once Weekly |

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

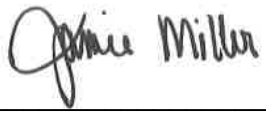
- QL FOR LETTER ONLY: 20 capsules per 28 days

**AUTHORIZATION DURATION:** Modeyso is configured as a prior authorization for new starts only. Hernexeos will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**

none



If a formulary exception is approved Modeyso will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY AND PROCEDURE MANUAL**

**POLICY NUMBER: 881.0**

**SECTION: Commercial Drug**
**SUBJECT:** Zelsuvmi

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| CHIP | X | | |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Zelsuvmi for GHP members who have prescription drug benefits, including Commercial, ACA, CHIP, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Geisinger Health Plan Kids (GHP Kids) is a Children's Health Insurance Program (CHIP) offered by Geisinger Health Plan in conjunction with the Pennsylvania Department of Human Services (DHS). Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Zelsuvmi may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of molluscum contagiosum **AND**
- Medical record documentation of one of the following:
    - Medical record documentation that lesions have not resolved on their own within 6 months OR
    - Medical record documentation of lesions located in a sensitive area (face, eye genital region) **OR**
    - Medical record documentation member has concomitant atopic dermatitis **OR**
    - Medical record documentation member has a weakened immune system (HIV/AIDS, immunosuppressive therapy, primary immunodeficiency) **AND**
- Medical record documentation of treating new lesions that have not been previously treated with Zelsuvmi for greater than or equal to 12 weeks **AND**
- Medical record documentation that no other treatments for molluscum contagiosum are being used concurrently **AND**
- **If member age is greater than or equal to 10 years**: Medical documentation of intolerance to, contraindication to, or therapeutic failure to podofilox

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 31 grams per 30 days

**AUTHORIZATION DURATION:** 12 weeks

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Ekterly may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation that Ekterly is prescribed by an allergist, immunologist, hematologist, or dermatologist **AND**
- Medical record documentation that Ekterly is being used for the treatment of an acute attack of hereditary angioedema (HAE) **AND**
- Medical record documentation that acute attack of hereditary angioedema is not a laryngeal edema attack or that the member does not have a history of laryngeal attacks **AND**
- Medical record documentation that Ekterly is not being used in combination with other approved treatments for acute hereditary angioedema attacks **AND**
- Medical record documentation of diagnosis of hereditary angioedema supported by physician documentation of:
    - Recurrent, self-limiting non-inflammatory subcutaneous angioedema without urticarial, lasting more than 12 hours **OR**
    - Recurrent, self-remitting abdominal pain lasting more than 6 hours, without clear organic etiology **AND**
- The presence of specific abnormalities in complement proteins, in the setting of a suggestive clinical history or episodic angioedema without urticaria; supported by medical record documentation of 2 or more sets of complement studies, separated by one month or more, showing consistent results of:
    - Low C4 levels **AND**
    - Less than 50% of the lower limit of normal C1-INH antigenic protein levels **OR**
    - Less than 50% of the lower limit of normal C1-INH function levels **AND**

- Medical record documentation of failure on, intolerance to, or contraindication to Berinert **AND**
- Medical record documentation of concurrent use or failure on, intolerance to, or contraindication to prophylactic therapy (danazol)*

***NOTE: Only applies to members with more than one severe episode of angioedema per month, or those with a history of laryngeal attacks.**

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 4 tablets per fill

**AUTHORIZATION DURATION:** 6 month initial, 12 month ongoing

**FORMULARY ALTERNATIVES:**

icatibant*

*prior authorization required

If a formulary exception is approved Ekterly will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.
